### River Valley Unit U.C. Women

The delayed meeting of River Valley United Church Women was held on Thursday last at the home of Mrs. George Heasman with an attendance of twelve, one visitor and six children.

The President, Mrs. Jack Bush, opened the meeting with a poem, followed by prayer. The theme hymn was sung and all repeated the Lord's Prayer.

The usual business procedure followed with two cards, twenty-nine home calls and twelve hospital calls being reported. The Social Functions convener thanked all for their help with the past banquets. The Supply Secretary reminded all of the date to be sent in May and to be sure and get their quilt blocks in. Be sure to hand in your old silk stockings.

The offering was received and dedicated.

The programme was handed over to Mrs. Phil Conley. She opened with the poem, "Spring," followed by the hymn "O Word of God Incarnate." Mrs. Glenn Bush read the Scripture taken from I. John 12: 45-50. Mrs. Conley led in prayer and Mrs. Ernest Carr read the story "Land Beyond the River." Mrs. George Heasman sang the beautiful old hymn, "The Nail-Pierced Hand," with Mrs. Conley at the piano.

Mrs. Jack Bush and Mrs. Ernest Carr conducted a question and answer period on the second chapter of

the study book (Family Life). A short discussion followed.

Mrs. Jack Bush took charge of the Bible study for Mrs. Roy Bush who was ill. The members were left with some questions to be answered concerning the Easter story.

Rev. P. J. Hommersen spoke briefly on the true meaning of Easter. Mrs. Ralph Utman read the poem "Ladies Aid." Following the closing hymn Rev. Hommersen pronounced the benediction.

All enjoyed a bountiful lunch. Mrs. Gerald Brooks moved a vote of thanks to all.

The first successful electric lighting plant was established by Thomas Edison in a textile mill at Cornwall, Ontario.

### MAINTAINING THE PRIME OF LIFE

When we speak of the prime of life, we refer to that period when we are in our best health. After 40, we are passed our prime and although we relinquish some of the beauty and strength of youth, we can still retain its vitality and vigor, a well-functioning nervous system and positive good health. To do this, a well-balanced diet that includes an adequate supply of calcium is of first importance.

In our Canadian meal patterns there is only one food that furnishes the body with sufficient calcium and this is milk. It has no substitute. The easiest way to get enough milk is to drink it as is. However, some adults do not care for milk as a beverage with meals but there are other ways to get your minimum of 1 1/2 cups a day. Here the Consumer Section in Ottawa lists some of them.

— Drink milk between meals in place of one of the numerous cups of coffee or tea — it will be a treat to your nervous system.

— Drink milk as a night cap and a vehicle to dream land — try it warm when you find it hard to unwind at the end of the day.

— Use milk instead of water for thinning condensed cream soups.

— Eat more cheese — it is milk in concentrated form.

— Serve more chowders and how about oyster stew?

— Choose ice cream for dessert or a between-meal snack.

— Put some of your daily quota of milk into desserts like blanc mange, custards, rice or tapioca puddings.

— Order (or make) a feather weight souffle, a fondue or a rarebit for lunch; they all contain milk.

— Use milk in creamed dishes like a la king; creamed peas and eggs; scalloped potatoes; cheese sauce for fish and so on.

— Get more milk in breakfasts — on cereals — in waffles.

There are several kinds of fresh milk at most dairy counters — whole, partially skimmed, skim and butter-milk. Buy the one best suited to your tastes but use some kind everyday for you need at least 1 1/2 cups for vital good health.

### Cooking Comments

Tart red unpared apples are excellent in fruit salads. To prevent them turning dark sprinkle with lemon juice. Just before serving drain and combine with chopped celery, nuts, marshmallows and fruit salad dressing.

Food experts from Macdonald Institute, Guelph, recommend the following method for making hard cooked eggs for Easter — or for any time. To help prevent toughening of the whites cover the eggs with cold water and bring to the boiling point. Remove from the heat. Cover pan and let stand for 25 minutes. Cool immediately in cold water — to prevent

darkening of the yolk.

As a time saver, plan a complete oven baked meal occasionally. Although potatoes may be baked as low as 325 degs. F., they are best when cooked at 425 to 450 degs. F., so select a main dish which requires this same temperature. Bake the washed, oiled potatoes for 45 to 60 minutes, or until soft when squeezed. Remove from the oven and prick at once to let out the steam and prevent sogging.

Along with baked potatoes serve a sauceboat of melted butter seasoned with salt, pepper, and onion or garlic, suggests the food experts from Macdonald Institute, Guelph.

For a delicious centerpiece set wedges of Canadian cheddar cheese on a lazy Susan around a centre of polished red home-grown apples. Serve as a dessert or a TV snack.

### Fuller Ladies' Aid 25th Anniversary

Knox Presbyterian Church Ladies' Aid, of Fuller, observed its twenty-fifth anniversary on March 7th. The President, Mrs. Harry Redcliffe, presided over the worship service and extended warm welcome greetings to the guests, who came to commemorate this occasion. Mrs. Howard Wannamaker presided at the piano. Two lovely plants at the altar were presented in memory of the late Mrs. John Douglas by her daughters, Mrs. David Thompson and Mrs. Burton Calvert and in memory of the late Mrs. Willard McTaggart by the Ladies' Aid. Mrs. Charles Irvine gave the roll call for all the churches and organizations represented, to be kept for the 50th anniversary. Representa-

tives were from Trenton, Belleville, St. Andrew's, Stirling, Madoc, Tweed, Roslin, Foxboro, West Huntingdon, Presbyterian and United, Ivanhoe United, Molra United, Thomasburg Anglican, Standard and Fuller United.

Minutes of the first meeting on March 3rd, 1937, were read by Mrs. Charles Irvine, who also gave the history of the Ladies' Aid, in which it stated that when the union of churches took place, in order that their missionary work not be cut, a group of thirteen ladies from the Fuller congregation met at the home of Mrs. Walter Thompson on March 3rd, 1937.

At the suggestion of Mrs. Jennie McTaggart they decided to become a Ladies' Aid although they still recognize the W.M.S. motto "The World for Christ." The meetings were to be held the first Wednesday of the month. Officers appointed were Mrs. Willard (Jenny) McTaggart, President; Mrs. Harry Redcliffe, Vice-President (now the only living charter member); Mrs. Walter Thompson, Secretary; Mrs. Chester Adams, Treasurer.

The group has always been small with 13 members the first year and in 1961. The same ladies who are responsible for the Ladies' Aid are also members of all other organizations at Knox Presbyterian Church and thus all interests are grafted together. Among the many interests of these dedicated women are: The support of our missionaries here and abroad, support of a Summer School for the children, starting a thriving Sunday School, Evangelistic work has always found an open door at Fuller, namely the Salvation Army, Faith

Mission (with Miss White), the Huntingdon Sunday School Association, and many others. At present they are supporting the work of Miss Campbell of the Bible Club Movement who gives religious instruction in the school each week.

The Ladies' Aid quilted 8 quilts in one year and knitted for World War II. They cater at Scott's Sales Barns, hold pot luck dinners each month — in the homes during the winter and in the dining hall of the church during the summer. Realizing that God must always have a part in our activities these dinners were always followed by devotions and fellowship.

The President has been in office for 21 years. The membership has never been larger than 16. The first year the ladies took in \$30.81 to help in the upkeep of their church. In 1961 \$797.18 was raised. Knox Presbyterian Church has been the centre of this community's activities. For our past successes we give God the glory and although we realize it is necessary to have funds to keep up a place of worship we, its' members, are reminded that "Except the Lord build a house they labor in vain that build it."

### Memorial Service

A memorial service was conducted by Mrs. James Wilson. "Precious in the sight of the Lord is the death of his Saints." (Psalms 116: 15). Mrs. Willard McTaggart and Mrs. John Douglas.

Two solos were rendered by Mrs. Arthur Hassall, of West Huntingdon. "The Breath of God" and "I Am Sure I Will Not Lose the Way." The offering was presented by Mrs. David

Thompson and Mrs. James Wilson and was dedicated by Rev. R. D. MacLean, of Belleville.

### Guest Speaker

Mrs. R. D. MacLean, of Belleville, was the guest speaker and was introduced by Mrs. Earl Wannamaker. Mrs. MacLean chose for her subject "Influenza." Our Christianity must be catching like flu bugs. Others see Christ in us and our influence in the lives of others and want him. In conclusion she said we must make our witness attractive as we are often the only Bible the world reads.

Mrs. David Thompson and Mrs. James Wilson were in charge of the register.

Following the program the guests were invited to the dining hall where the tables were decorated with blue and white streamers, pink roses and ferns. Mrs. Harry Redcliffe placed the knife in the prettily decorated anniversary cake.

### Candle Lighting Service

A candle lighting ceremony was conducted by Rev. R. A. Sinclair, B.A., of Madoc. Mrs. D. Thompson, Mrs. H. Redcliffe and Mrs. B. Redcliffe lit the candles to represent the past, present and future.

### Dedication

Mrs. David Thompson donated 25 assorted coffee mugs, one for each year of the Ladies' Aid. The President voiced her appreciation on behalf of the Ladies' Aid.

Rev. R. D. MacLean thanked all the churches and organizations for their representation at the meeting. Greetings were brought from the Presbytery by Rev. R. A. Sinclair, Madoc.

## NEWS FOR THE BUSY FARMER

### GET CATTLE OUT EARLY

From hay to grass and from confinement to outdoor freedom is a big change and a big shock to your cattle. This will cause a drop in production if you don't do something to make this change gradual, say livestock specialists with the Ontario Department of Agriculture.

They suggest first, turning your cattle out in a small field, near the barn, 2 or 3 weeks before the pasture is ready for them; they can still be fed their winter ration but will have a chance to get used to being outside.

Second, when the cattle go to pasture feed hay free choice. The grass contains so much water that the animals cannot eat enough of it to get their nutrient requirements. They will eat enough hay to fill their requirements. The hay also reduces the danger of bloat on the fresh grass. In addition, it allows the rumen bacteria to become adjusted gradually to a high moisture diet. Any sudden change in diet has a harmful effect on rumen bacteria.

### TREAT WARBLERS IN APRIL AND MAY

In the spring, when lumps start appearing on the backs of cattle, you can be pretty sure that warble grubs are the cause. The early grubs usually start boring through the skin early in April, and later grubs repeat this process on into May.

What happens if the grubs escape?

They will develop into flies that will terrify the cattle throughout the summer months, resulting in a decline in beef or milk production. These flies also lay eggs on the cattle, the eggs hatch into larvae which enter the skin, develop into grubs, and start the cycle all over again.

This life cycle can be interrupted if treatment is applied after the grub has made a hole in the back of the animal but before it has come out. Warble fly powder, mixed with water according to directions, will kill the grubs, if it is applied by a stiff brush, or as a spray. In either case, however, the scabs which tend to form over the openings in the skin must be removed, or the mixture will not pass through the holes in the skin and come in contact with the grubs.

In Ontario the period April 10th to 18th is usually the most suitable time for carrying out control of warble grubs. However, another treatment must be applied 3 to 4 weeks later, and if grubs continue to appear (as they do in some years), a third treatment should be applied 3 weeks after the second.

Som 285 townships in Ontario operate under the provisions of the Warble Fly Control Act, reports W. P. Watson, Chief, Production and Extension Division, Ontario Department of Agriculture. This means that in these townships all cattle with warble grubs must be treated by either the brush or the spray method. Cattle owners who fail to carry out this requirement are liable to prosecution.

## Meighen Rodgers Writes Interesting Account of His European Tour

Following is the story of a European tour by Meighen Rodgers, of West Hill, who formerly resided in the Stirling district, and is now a teacher at Scarboro. Due to its length the article will be published in several parts. This is the tenth installment.

### Norway

Crossing the Norwegian frontier, we took the number one road from Vinterbro to Oslo, capital of Norway, with a population of 550,000. Known as Christiania for 300 years, it was decided to revert to the old name of "Oslo" in 1925.

The city is situated at the head of Oslofjord and is surrounded by beautiful hills and deep forests. Although its history goes back to its foundations by King Harald the Hard in 1048, it is essentially a modern city with large streamlined buildings of steel and concrete.

The Kon Tiki Museum is one of Oslo's tourist attractions. In this museum one may view the Kon Tiki raft, used in 1947 by five Norse and one Swede to travel 4,300 miles in 101 days from Peru to the Rariora Reef, where they were found by native Polynesians. The raft was rescued and shipped to Oslo, Norway, from Tahiti Island in the Pacific Ocean.

We also visited the Viking Ships Museum, where we saw ancient relics and Viking ships used by Royalty many years ago. These Viking ships were excavated from blue clay near the southern Norwegian coast in 1904. It cost Norway half a million kroner to excavate each of these ships. It was their belief that when Royalty died, a burial should be made in a ship with all the necessary equipment, food and servants, that were enjoyed during life. Several years ago, pirates discovered some of these burial mounds and stole valuable jewels from the buried ships. Most of these Viking ships were 60 feet long, 15 feet wide and had sixty slaves to row them. A Pilot Ship was 63 feet long. It is believed that Leif Ericson used a Pilot Ship. The blue clay has pretty well preserved these buried treasures.

The world olympics were held in Oslo in 1952 and an impressive skill jumping tower of steel and concrete over 140 feet high was erected at that

time. This hill has been used for skill jumping since 1892.

### Excellent Harbour

Oslo has been an excellent harbour and the third largest merchant fleet in the world. With its many fjords, Norway has the longest coastline of the world.

While in Oslo, we visited Frogner Park, on the western outskirts of the city where are grouped the famous Vigeland sculptures. Vigeland devoted most of his life to the work of representing the various stages of life from the womb to old age. He was married three times, but lived somewhat an unhappy life, due to lack of time with his family. He died in 1943. His sculptured column of 121 bodies is 56 feet tall and is probably one of his greatest works.

### Scenic, Hilly Countryside

Departing from Oslo, our route took us through scenic, hilly, countryside to Honefoss, where we saw an enchanting waterfall. The wide and fertile valley of the Hallingdal River led us on to Sokna.

We stopped along the main highway to tour two of Norway's old State Churches. The one was erected in 1152 and the other in 1850. There are 60 or 70 of these ancient churches in Norway. Each church is surrounded by the graves of its early worshippers.

Early evening found us lodged in Gello, one of Norway's largest holiday resorts, 2,625 feet above sea level on the borderland between the great Hardanger Plateau and the Hallingdal River Valley. A chair-lift conveyed us, two at a time, to Gellohoga (3,550 feet) in six minutes. From the top of this mountain we had an excellent view of the town below and the scenic countryside.

The following morning we departed from Gello and travelled through Ustaset, and along the Bergen Railway to Haugastol. Thence a gradual ascent, almost unnoticeable, to Dryanaut and Fossli, situated on the western fringe of the Hardanger mountain plateau.

In the afternoon the road zigzagged steadily downhill through the famous Nabol River Valley, partly through tunnels, partly edging along the steep Precipices. We had an excellent view of the cascading Voringfoss Falls as it plunges 595 feet to the rocks below. At Ovre Einford we saw a 900 year old stone church. Through tunnels blasted out of solid rock to Eldfjord and along the Hardanger Fjord to Kinsarvik, where we took a ferry across the Hardanger to Kyandall.

(To be continued)

More than two million Canadians volunteer their time and effort to serve in some voluntary capacity for our Canadian Red Cross.

# MORE MILK! MORE MONEY!

when you feed  
**PIONEER-CAFETERIA DAIRY FEEDS**  
Supplements  
or Complete Feeds

Pioneer-Cafeteria Dairy Supplements and Complete Dairy Feeds have what it takes to get EXTRA pounds of milk out of your cows... from the end of the first week of feeding to the end of their lactation periods.

Here's why. Pioneer-Cafeteria dairy rations give cows a high level of Vitamin "A", which improves herd health... and healthy cows make more milk than cows that are slightly "off color." Also, Pioneer-Cafeteria dairy rations give cows an extra-high level of Vitamin D-2, which assures proper assimilation of minerals, and is your best form of insurance against milk fever.

Cows on Pioneer-Cafeteria rations don't "milk themselves thin," even though they are producing extra milk... because they get all the necessary nutrients in their feed and don't have to draw from their bodies.

Even at regular prices, Pioneer-Cafeteria dairy feeds are the "best buy" on the market. At today's reduced prices, they're a BARGAIN.

## LEGION NOTES

The general April business meeting of Branch No. 223 was held in the Legion Hall last Tuesday evening. A good attendance greeted President Gil Finkle.

The Treasurer's report was given by Cde. Geo. Noble. The branch is presently in good financial shape.

Membership Chairman, Doug Patterson, reported a membership of 71 regular members to date. This represents an increase of 11 members over 1961. Cde Patterson pointed out that there were still a number of past members who had not paid their 1962 dues. These, along with several new members who have indicated that they will join the Legion, should bring the membership to about 90 regular members.

On Wednesday, April 18th, at 8.15 p.m., the branch will hold a special social evening. A feature of the evening will be three films, made available by the C.N.R. through the efforts of Cde. Chas. Wilson. We are given to understand that these films are outstanding, having been produced for TV as well.

A lunch has been arranged and it is also possible that Cde. Fred Houchin will be able to line up some of the local talent which enlivened our membership night last February. This promises to be a most enjoyable event and we urge all members to reserve Wednesday, April 18th for the branch social.

Cde. Fred Houchin suggested that an initiation night should soon be held for all newly-joined members. Following some discussion, it was suggested that an initiation ceremony be arranged for a date in June.

The meeting also discussed plans for the annual fireworks display in connection with the Victoria Day holiday, which falls on Monday, May 21st. Preliminary plans were discussed and some arrangements made.

The Legion will again canvass the town for funds to help stage this event. This year, special arrangements are being made to enlarge and enliven the event. More announcements can be expected in this connection in the near future.

## Ontario Society For Crippled Children Appeals For Funds "Buy Easter Seals"

If we sincerely believe in the basic humanitarian concepts of our Society, then we all have a responsibility to make certain that crippled children do not suffer unnecessary hardships, due to lack of medical advice, care and treatment facilities. That they deserve all the help they need is irrefutable.

The 1962 Easter Seal Campaign is now being conducted in 226 communities throughout Ontario, and sponsors are the Ontario Society for Crippled Children and its Rotary, Lion, Kiwanis, Kinsmen, and other service club representatives. Stirling and surrounding district is ably represented by the local Rotary Club.

The financial goal is \$1,000,000.

It will be attained, but only with full support from all quarters — individuals — companies — employee groups — community organizations — in fact from all men and women of goodwill throughout Ontario.

The Ontario Society for Crippled Children is a voluntary organization comprised of 10,000 members having no barriers. Race, colour, religious faith, or lack of funds are unimportant statistics on a crippled child's medical chart.

All children require help. We acknowledge this fact in a multitude of ways, by law, by love, by moral obligation, by pure instinct.

In brief, Easter Seals extend a helpful protective hand to our crippled children — help them to overcome their fears and to instill in them hope, courage and self-reliance. A needy crippled child right in your community awaits help. Your Easter Seal contribution today could have a life long affect.

Largest muskie ever caught, just over five feet in length and one ounce short of 70 pounds, was taken in the St. Lawrence River on the U.S. side of the international boundary.

## The Good Driver

Driver discourtesy increases traffic dangers, says the Ontario Safety League. Rudeness — behind the wheel or anywhere else — is usually the weak man's imitation of strength.

A good driver aims at being inconspicuous in traffic. Pedestrians, however, often have to try to make themselves conspicuous — particularly at night. Light clothing is much safer after dark, and should be a must for children who use streets without sidewalks after sundown. A flashlight gives greatly increased protection. If nothing else is available to warn drivers, it helps for a pedestrian to carry a newspaper or some other light, or reflective object.

A toast to the Grand Encampment of Ontario was proposed by Ross Jeffrey, P.D.D.G.P., of Picton, to which Ken Sine, Grand Patriarch, replied.

### Mailing Lists Are Corrected

The mailing lists of the News-Argus have been corrected up to this date and subscribers are asked to check their labels. Should the expiry date on the label not correspond with your official receipt please notify this office at once. If your subscription is in arrears an early settlement will be appreciated.

### Attend Orange Grand Lodge

Among those from Stirling district attending the sessions of the Grand Orange Lodge of Ontario East, being held in Ottawa this week are Fred Bateman, Past Grand Master; Lorne Hagerman, Deputy Grand Master; Mrs. Orrie Seeley and Mrs. Burton Woodbeck, representing the Stirling L.O.B.A., No. 655, and Elvin Carr. The sessions are being held in the Chateau Laurier Hotel.

### "Ham" Bingo Tuesday Next

Make it a date — plan to attend the Ham Bingo, sponsored by the Stirling Agricultural Society, in the Stirling Theatre on Tuesday evening next, April 17th.

The urgent need of this organization, if it is to continue, is the wholehearted support of the citizens of the Village and surrounding community. Each year the directors work very hard to provide a Fair, at which rural and village folk intermingle, and view the exhibits from the area as well as the programme offered. Gate receipts are not sufficient to meet current expenses and capital expenditures required from time to time. It therefore becomes necessary for the directors to seek other means of support throughout the year to augment their finances.

Tuesday night they are offering you a chance to win a ham for Easter as well as lend a hand to the directors of this worthwhile community organization.

### Local and Personal

Mrs. Kenneth Ray is spending this week in Toronto.

Mr. and Mrs. R. B. Bell spent the week-end in Toronto.

### Pentecostal Assembly To Build New Church

The Reverend Robert Donnan, pastor of the local Pentecostal assembly, announced today that plans to build a new church in Stirling were nearing completion and construction was expected to commence in the very near future.

"For several years we have felt the need of a church building of our own," said Mr. Donnan. "We have had good meetings and times of spiritual refreshing in the present store building, but at last we see the answer to our prayers for a sanctuary that will meet the requirements of our growing church family."

The Emily Parker property, just west of the corner of Front Street and the Frankford Road has been acquired, and on this site an attractive building designed by Church Enterprises will be erected. It will be of concrete block and brick construction, with laminated wooden beams. The seating capacity will be 125, with adequate provision for a growing Sunday School.

"We purpose to have not only an attractive house of worship," stated Mr. Donnan, "but a congregation of spiritual quality that will be a credit to this lovely little town."

### Girl Guide Supper Meeting

The First Girl Guide Company of Stirling held their weekly meeting on Tuesday, April 10th at the home of their leader, Mrs. E. Warren.

There was a full attendance and each Six sat together and enjoyed a hot supper. Four girls tried for their Hostess badge and were a big help to their leader and Lieut. Mary Cooke. Mrs. Bert Bastedo, Badge Secretary, arrived and presented badges to several girls and played for the singing period. Prayer and Taps closed the evening and on behalf of the girls Janet Murray thanked their Captain.

### Mrs. Blanche Reid Re-elected President Stirling Women's Institute

The April meeting of the Stirling Women's Institute was held at the home of Mrs. E. Luery, John St., on Wednesday of last week at 2.00 p.m., when the District President, Mrs. P. D. MacMullen, gave her official address, which proved most helpful and interesting. She explained the different departments and committees and the proper use of monies therein. A small gift was presented to the speaker for her fine address.

The business part of the meeting was under the direction of the President, Mrs. B. Reid, who most cordially welcomed all and thanked Mrs. Luery, the hostess. "The exchange of slips, plants or bulbs," marked the roll call, which showed 12 members and 2 visitors present.

The Secretary, Mrs. P. Bronson, read the minutes and tabled the correspondence, including a membership donation from Mrs. L. Rodgers, West Hill; also a letter from the Provincial President, Mrs. L. G. Lymburner, re the spring bus tour May 15th to 18th.

The remaining copies of Home and Country, also the hand books were distributed by the Public Relations Officer, Mrs. P. Bronson.

Mrs. Wm. C. West, Treasurer, gave a complete financial report, with the year ending with \$89.27 of a bank balance. This proved a very successful year. Projects were completed as planned by the Society. Though only a small organization every member works harmoniously in her own capacity which makes it a pleasure to be a member of the group. Mrs. R. Williams gave the Auditor's report, showing the records to be correct.

The question of the annual summer holiday was further discussed. It was agreed to visit the Historical Museum at Belleville when a date can be arranged. Mrs. R. Williams is Stirling W.I.'s representative on the Historical Society.

### Winner of Truck

Douglas Morton, son of Mr. and Mrs. W. J. Morton, was the holder of the lucky ticket on the Heinz truck at Livezey's Red and White Store. The draw was made Saturday night.

### Attend I.O.D.E. Prov. Annual

Mrs. W. J. Morton and Miss Rosa Spry are attending the Annual Convention of the Provincial I.O.D.E. in Hamilton this week. The sessions are being held in the Royal Connaught Hotel.

### Successful At Dairy School

Three young men from the district were successful in passing their final examinations at the Kemptville Dairy School. D. L. McMaster, of Ivanhoe, won first class honours with 77.6 per cent; while R. E. Neal, of R.R. 3, Stirling, and A. M. Reid, of Halloway, passed with 64.2 and 56.4 respectively. Mr. McMaster also won a special prize of \$50.00 in cheese manufacture. Messrs. McMaster and Neal were employed at Central Cheese Factory last year while Reid was at the Evergreen factory.

Their many friends join in extending congratulations.

Only a very small minority of residents enter hospital these days without insurance coverage. But, of these, a sizeable proportion turn out to be young people just past their nineteenth birthdays. In these cases we find almost invariably that the parents have forgotten that children cease to be covered as dependants on reaching 19 and must immediately be insured separately. The price of their forgetfulness is usually a hefty hospital bill.

The Secretary for "Pennies for Friendship," Mrs. C. Gay, gathered the pennies from this meeting.

Mrs. P. D. MacMullen conducted the election of officers for 1962-63. Sixteen ladies paid their dues. Following is the slate of officers:

#### New Officers

President, Mrs. B. Reid; Vice-President, Mrs. Frank Smith; 2nd Vice Honourary President, Mrs. W. H. Cooke; Secretary, Press Reporter and Friendship Secretary, Mrs. P. Bronson; Treasurer, Mrs. W. C. West; District Director, Mrs. R. Williams; Assistant, Mrs. B. Reid; Branch Directors, Mrs. F. Smith and Mrs. R. Rupert; Pianist, Mrs. R. Williams; Home and Country Officer, Mrs. P. Bronson; Secretary for Pennies for Friendship, Mrs. C. Gay; Tweedsmuir History Book, Mrs. B. Reid; Auditors, Mrs. R. Williams and Mrs. C. Gay.

#### Standing Committee

Agriculture, Mrs. B. Reid; Canadian Industries, Mrs. Wm. C. West; Public Relations, Mrs. P. Bronson; Historical Research and Current Events, Mrs. Earl Luery; Citizenship, Mrs. E. Foster; Education, Mrs. M. Aythart; Home Economics, Mrs. R. Rupert; Health, Mrs. Frank Smith.

The May meeting will be at the home of Mrs. Aythart with the word "Motor" as the theme.

Mrs. Luery gave a short reading. Mrs. Reid voiced appreciation to the hostess and the lunch committee and a special thanks to the District President.

### Ontario Hospital Insurance Subject of Talk To Stirling Rotarians

E. Gordon, Peterborough,  
Gives Talk and Shows Film  
at Weekly Dinner Meeting

Members of Stirling Rotary Club were given a full explanation of the workings of the Ontario Hospital Services Commission as regards Hospital Insurance, by Mr. E. Gordon, of Peterborough, at their weekly meeting in Stirling Hotel on Tuesday night.

Introduced by Rotarian Charles "Chuck" MacKenzie, the speaker outlined the various aspects of hospital insurance. His remarks were further accented by a showing of the film, "A Simple Detail," in which various cases of neglect in following the regulations caused loss of money and disappointment.

"After nearly three full years of service," stated Mr. Gordon, "actual figures show that not only has the plan been well received, but that it has fulfilled the purpose for which it was established. The Commission looked forward to a maximum initial participation of about 85 per cent of Ontario's residents but, when the registration was complete, 91 per cent of the people were eligible for benefits. This has now grown to 97 per cent or more than 5,800,000 insured residents. Every month in 1961 the plan paid over 82,000 in-patient hospital bills and, during the year, over 290,000 emergency out-patient accounts, running up a grand total of over \$184,000,000 in benefits.

#### Insurance Certificates

Many residents of the province who go to hospital for admission — or for emergency out-patient treatment — do not take their Ontario Hospital Insurance Certificates with them. The hospital must have this information to complete their admission form in order that the patient's eligibility for benefits can be checked when the Commission is notified.

#### 19-Year-Olds

Only a very small minority of residents enter hospital these days without insurance coverage. But, of these, a sizeable proportion turn out to be young people just past their nineteenth birthdays. In these cases we find almost invariably that the parents have forgotten that children cease to be covered as dependants on reaching 19 and must immediately be insured separately. The price of their forgetfulness is usually a hefty hospital bill.

#### Marriage

Single persons who marry must, of course, begin paying Family premiums and how this is done will vary according to the circumstances. Presuming that both bride and groom are insured there will be no lapse in insurance. The husband, if he is connected with an insured group, pays the Family premium through his group. If the husband is not paying his premiums through a group but the wife is, then she pays for the family through her group. It is important that married couples pay family premiums.

#### Old Age Pensioners

The Hospital Insurance Plan has, of course, been a special boon to elderly people — many of whom could not obtain such protection before January 1959 and had to meet any hospital expenses out of very limited incomes. For those whose needy circumstances qualified them for Provincial Old Age Assistance or medical-welfare benefits, hospital insurance was made premium-free through the Department of Public Welfare.

Some people, however, misunderstood this to mean that nobody aged 70 or over receiving an Old Age Security pension from the Federal Government needed to register or pay premiums for hospital insurance. It was to correct this impression, and so possibly save some unwary pensioners from unexpected hospital bills, that the Commission sent reminders recently to more than a quarter of a million Old Age Security pensioners in the province.

In closing Mr. Gordon cautioned his listeners to remember the simple details — have your Certificate or number — (Continued on page eight)

### Official Visit of Mary Hulin, D.D.P.

Sister Mary Hulin, District Deputy President of District No. 4, paid her official visit to her own lodge, Laurel No. 211, on Tuesday night. She was formally introduced by J.P.N.G. Sis. Nora Wannamaker.

A guard of honour composed of Sisters Neva Vandervoort, Helen Bailey, Beverley St. Pierre, Joyce Richardson, Lillian Johnson and Bessie Patterson, formed to welcome the District Deputy President. The guard of honour were dressed in shrimp pink and carried spikes of matching glads and ferns which they presented to Sister Hulin.

In her address Sis. Hulin admonished the lodge to study the constitution and code of laws of the order and concluded with a lovely poem, "The Hills Ahead." Sisters Marilyn Pollock and Shirley Richardson presented Sis. Mary with a gift.

After lodge P.N.G. Sis. Olive Whitehead called upon Miss Barbara Woodbeck and her dancing class to entertain the guests.

Miss Janice Clancy and Master Gary Nicholson started the program with a gay tap dance entitled, "Love and Marriage." This was followed by a tap dance by Linda Bailey, "Toot, Toot, Tootsie."

The Frankford Majorettes in their blue and silver costumes gave the jazz baton "Wheels." The majorettes were Misses Elaine Sharpe, Shariene Hughes, Dale Goff, Paulette Ferguson, Barbara Girdwood and Caroline Duncan.

This number was followed by Connie Donohoe in "Swingin' Down the Lane;" Doug Faulkner, "Chattanooga Shoe Shine Boy;" Janice Clancy and Gary Nicholson in "Toy Trumpet," and Jackie Terry in "My Blue Heaven."

Sister Verna Woodbeck rendered a lovely solo, "When You Come to the End of the Day." Bruce Woodbeck sang and tapped "This is My Lucky Day."

This was followed by Linda Bailey in "Somebody Stole My Gal;" a march routine, by Frankford Majorettes; "Stompin' at the Savoy;" by Jackie Terry; "I Could Have Danced All Night;" by Connie Donohoe and Doug Faulkner, and concluded with "It's Been a Long Long Time," by Miss Woodbeck, accompanied by Mrs. H. Brown.

Sister Ethel Duffin presented Easter eggs to all the entertainers and chocolate to Barbara.

All enjoyed a delicious supper in the dining room convened by Sisters Ella Davidson and Isabel Good. The tables were very pretty in green and pink with baskets of daffodils and Easter eggs.

Noble Grand Sister Hilda Rose thanked Miss Woodbeck and her talented class dressed in their pretty costumes.

Sister Hulin voiced her appreciation to all who had helped to make such a gala evening in her honour.

## Meighen Rodgers Writes Interesting Account of His European Tour

Following is the story of a European tour by Meighen Rodgers, of West Hill, who formerly resided in the Stirling district, and is now a teacher at Scarborough. Due to its length the article will be published in several parts. This is the eleventh installment.

Near Alvik, we saw the Bjelvetoss waterfall, whose height was 2,600 feet before it was taken over by industry and diverted into steel tubes. Further along the Fjord is Fykesund Bridge, the largest suspension bridge in Norway, 750 feet long. We crossed this bridge and continued our journey to Oystese, a lovely tourist village facing the Hardanger Fjord.

On departing from Oystese, we passed the famous Stendalsfoss waterfall, under which one may walk without getting wet, and then through the breath-taking Tokagjel Canyon, where the road has been hewn into the mountain partly through tunnels.

### Bergen The Doorway to Norway

On the remainder of our motor trip to Bergen, well known as the "Doorway to Norway," I was touched by the simple yet tough conditions under which the Norwegians maintain culture and democracy, and I admire the people's skill for woodwork demonstrated in houses and furniture. I don't think I have ever seen so many waterfalls in my life, as I saw crossing Norway. It is truly a country with much to offer to the tourist. I hope I shall be privileged to visit Norway again in the future.

Bergen, situated on the western coast, and surrounded by seven mountains, has a population of 117,000. It is Norway's second oldest city and has an excellent harbour. Bergen University, which was founded in 1946, has three faculties—science, medicine and languages. Fishing and lumbering are the main industries. Bergen has a beautiful modern Post Office Building and a fine shopping district. The day we were in the city King Olaf was present too and I was able to get a picture of his Royal Yacht anchored in the harbour.

We boarded our ocean liner, the Leda, at Bergen, which took us across the cold North Sea to Newcastle-on-Tyne, England, thus ending another glorious tour.

### Third Tour

After spending a couple of days in Oxford, I set out on my third tour from Stratford-on-Avon, travelling northward through Kidderminster, Wollington, Whitechurch, and on to Chester on the Dee River. The ancient walls of this city extend for over two miles, have numerous gateways and are in an excellent state of preservation. The city also has a beautiful 14th century cathedral which was once a Benedictine Abbey and contains extensive monastic remains.

Continuing, we journeyed through the Mersey tunnel and on into the well-known Lake District of Windermere, and Grasmere, where William Wordsworth lived and died. We passed through Keswick, Carlisle, and on to Gretna Green, whose notoriety as the marriage place for eloping couples is worldwide. In Scots law, if a declaration of marriage was made before two or more witnesses it was legal. These marriages could take place anywhere in Scotland and as Gretna was the first village over the border, this was the favourite for runaway English couples. However, by act of Parliament passed in 1850, it became necessary to have twenty-one days domicile. It was here at Gretna Green, where our tour group staged a mock wedding in the old blacksmith shop.

Our next stop in scenic Scotland was at Dumfries, where we toured Robert Burns' cottage and saw his burial place. Arrived at Glasgow. Journeying on we arrived at Glasgow, which is the largest city and seaport of Scotland, owing its growth mainly to the development of industries on the River Clyde, as well as to the mines of Lanarkshire and Midlothian. Glasgow University was founded in 1450.

Beautiful Loch Lomond. In the morning we went on to beautiful Loch Lomond, which was much written about by Sir Walter Scott and is the largest lake in Great Britain, being 24 miles long with a width varying up to 5 miles. We enjoyed a boat ride around the lake, passing many beautiful summer homes, one being Princess Margaret's.

In the afternoon, we had reached Callander, the "Gateway to the High-

lands." The fame of the Trossachs district is due not only to its extraordinary combination of mountain, loch and woodland, but also to the graphically written description in Scott's "Lady of the Lake" and "Rob Roy," which have served as an introduction to many thousands of visitors. The word Trossachs means "Bristly Country" and the richly wooded gorge of the Trossachs extends actually from Loch Achrag to Loch Katrine, though the road through the pass does not follow quite the same route as in Scott's time.

Our tour took us on to Stirling, Scotland, where we saw the beautiful Stirling Castle. While in Stirling, I visited the city hall and took greetings from Stirling, Ontario. I was warmly received and given a map and several pamphlets of the city. I enjoyed a tour of the main business section and purchased a souvenir spoon of the city.

One sister, Mrs. Lily Anderson, also survives.

Mr. and Mrs. Stewart were married almost 52 years ago and two years ago celebrated their golden wedding anniversary.

The memorial service was held on Sunday afternoon, April 1st at Rylstone Church, where the service was conducted by her pastor, Mr. H. D. Pallen. The soloist, Mrs. John Beatty, of Havelock, sang a beautiful solo, "In The Garden," a favourite of Mrs. Stewart, as was the only hymn sung, "The Lord Is My Shepherd."

Flower bearers for the many beautiful floral tributes were all neighbours, Messrs: Chas. and Don Stewart, Roslin Finch, Bob Spencer, Jim Gray, Richie Melkjohn, Fred Petherick, Percy Reid, Ellis Jones, Will Morton and Ralph Heath.

Interment was made in Rylstone Cemetery.

Relatives attended from Whitby, Peterborough, Frankford, Stirling, Bath, Campbellford, Port Perry and Havelock.

The funeral was largely attended, the Church being filled to capacity. Mrs. Stewart was a member of Rylstone United Church and attended the Woman's Association and Institute when her health permitted. The sympathy of the community goes out to the bereaved family.

Forum On Unity By Anglican and United Clergy

St. George's Cathedral Parish Hall, Kingston, was the scene of an interesting, and one might say, historic meeting on Monday, April 2nd, when the clergy of the Diocese of Ontario, and the ministers of the United Church of Canada from the area covered by the Diocese of Ontario, attended a Forum on Unity arranged by the Bishop of Ontario, the Right Rev. Kenneth C. Evans, D.D., as part of the celebration of the Diocesan Centennial.

The opening devotions were conducted by the Dean of Ontario, the Very Rev. A. T. Brislave Browne, D.D., who read Acts 15: 1-15, 19-29, from the New English Bible. Bishop Evans welcomed the Ministers of the United Church and introduced the Rev. Principal Elias Andrews, and the members of the panel, The Rev. Professor Donald Mathers, D.D., of Queen's Theological College, and the High Rev. George B. Snell, D.D., Coadjutor Bishop of Toronto.

After each of the panelists had spoken briefly, the meeting was broken into four groups, to discuss and report on four topics suggested in a book produced in 1960 by the Committee on Church Unity of the Anglican and United Church. After a period of group discussions, the groups reassembled, and reported their findings and Bishop Snell and Dr. Mathers answered questions which had arisen as a result of the group discussions.

Principal Elias Andrews summed up the results of the meeting and dismissed the gathering with the Blessing.

The United Church Ministers were the guests of the Anglican clergy at a luncheon served in the banquet room at the Masonic Temple.

The formal discussion gave way at luncheon to easy informal talk and the opinion of most who attended was that the time allowed was too short and that we could profitably meet more frequently.

The Rev. P. J. Hommersen, the Rev. W. G. Fletcher and the Rev. F. E. Downing, of Stirling, attended the Forum.

After each of the panelists had spoken briefly, the meeting was broken into four groups, to discuss and report on four topics suggested in a book produced in 1960 by the Committee on Church Unity of the Anglican and United Church. After a period of group discussions, the groups reassembled, and reported their findings and Bishop Snell and Dr. Mathers answered questions which had arisen as a result of the group discussions.

Principal Elias Andrews summed up the results of the meeting and dismissed the gathering with the Blessing.

The United Church Ministers were the guests of the Anglican clergy at a luncheon served in the banquet room at the Masonic Temple.

The formal discussion gave way at luncheon to easy informal talk and the opinion of most who attended was that the time allowed was too short and that we could profitably meet more frequently.

The Rev. P. J. Hommersen, the Rev. W. G. Fletcher and the Rev. F. E. Downing, of Stirling, attended the Forum.

Forum On Unity By Anglican and United Clergy

St. George's Cathedral Parish Hall, Kingston, was the scene of an interesting, and one might say, historic meeting on Monday, April 2nd, when the clergy of the Diocese of Ontario, and the ministers of the United Church of Canada from the area covered by the Diocese of Ontario, attended a Forum on Unity arranged by the Bishop of Ontario, the Right Rev. Kenneth C. Evans, D.D., as part of the celebration of the Diocesan Centennial.

The opening devotions were conducted by the Dean of Ontario, the Very Rev. A. T. Brislave Browne, D.D., who read Acts 15: 1-15, 19-29, from the New English Bible. Bishop Evans welcomed the Ministers of the United Church and introduced the Rev. Principal Elias Andrews, and the members of the panel, The Rev. Professor Donald Mathers, D.D., of Queen's Theological College, and the High Rev. George B. Snell, D.D., Coadjutor Bishop of Toronto.

The report of the standing committees were presented as follows:

Mrs. E. C. Hay-Ellis for the Historical Branch. She said a tour of the Historical Museum could be arranged for all the members.

Mrs. MacMullen displayed a photograph of some of the ladies of Abbot's Leigh W.I. in England and a program. Last year they sent Christmas cards and book marks and the Christmas gift from River Valley was rain hats.

Mrs. Roy Tucker reported over twelve dollars contributed to the Penies for Friendship Fund. All the penies are to be collected at the District Annual and the Provincial President will carry a cheque to Australia in October. At the Triennial Convention it will be decided where the need is greatest to help educate women and girls.

### MAPLE TIME

The total Canadian production of maple products (expressed in syrup) amounted to some 2,827,000 gallons in 1961 and had a gross farm value of over ten million dollars. Over three quarters of the crop came from the maple stands in the Eastern Townships of Quebec which lie south of the St. Lawrence River. The remainder came from Ontario, New Brunswick and Nova Scotia in order of yield. Although it is impossible to estimate this year's crop, indications are that it will be a good one.

Maple sap as it comes from the tree is almost as colourless as spring water and barely sweet. It takes some 30 to 40 gallons of this "maple water", as early settlers called it, to make one gallon of the amber coloured, unique flavored maple syrup as we know it. Besides syrup, the sap is also made into soft and hard maple sugars, maple butter and maple taffy. All these products are available to the consumer, however a large part of the maple crop also goes to the manufacturers of ice cream and tobacco for flavoring purposes so there is never an over supply by any means, of our native sweet.

The sale by grade of maple products is compulsory only in the prov-

ince of Quebec. However, federal legislation forbids the use of the word "maple" in the description of syrup, sugar, maple butter, sugar cream or taffy if the product is not pure maple. Therefore, if you want a pure maple product buy only the one that is labeled "Maple Syrup" or "Maple Sugar", and that includes the name and address of the packer. Products labeled "artificially maple flavoured" are not pure maple products and are considerably less in cost.

Extracting sap from maple trees is one of the oldest agricultural activities of our nation. The practice was passed down to early settlers by the Indians who called the return of spring the time of the Maple Moon or the sugar month. Braves, who at other times of year disdained from helping their squaws with any chores related to the "home" or "wigwam", bent enough at maple time to lend their women a hand in the collection and boiling of the sap, indicating how well they loved this unique flavored sweet. It is loved no less today and the syrup and sugar is used in households to make delicious desserts, icings, sauces and candies. There are samples of these treats to be found in the recipe section of an attractive government publication which is available free from Information Division

Canada Department of Agriculture, Ottawa. The booklet is called "Maple Syrup, Sugar, Butter, Taffy" and includes information on the production, buying, storing and using of our maple products.

## OF MANY THINGS

(By Ambrose Hills)

### THE POORER COUNTRIES

You hear a lot these days about the underdeveloped countries, and what should be done about them.

Everybody has the answer for them. They need prosperous industries, they need capital invested in them, they need to produce goods that will sell in world markets.

Want to start a factory? You would be welcome in many an underdeveloped country. They would give you attractive tax concessions. Your labour costs would be low, and labour legislation would protect you from unjustified strikes or crippling demands. In short, officially and in every other way the arms of the underdeveloped nations would be spread wide open to receive you.

Why would they want you?

Not because they like the way your hair is parted, or the color of your eyes. They want you because you would invest money, produce goods that would sell, create jobs that would improve the living standards of the people. They want you so they'll have big plants, with parking lots full of automobiles of the workers, and stores which cater to the workers with a steady pay cheque.

Now think on those things. Then remember this — Canada is, in many ways, an underdeveloped country. We just don't realize that it is. We are acting as if ours were a fully-natured economy, with plenty of people and a big domestic market. We are spending and acting as if we had it made. We no longer welcome industry with open arms — instead we grasp at it with outstretched hands, grabbing for tax money.

Canadians face a rough climate. It is no easyland. One crop a year... If you are lucky. The freezeup is severe. If you were considering a factory, all those things might scare you from Canada. Load on top of our natural handicaps a tax burden that is just about the highest in the world, plus a philosophy of "soak the corporations" and you'll see that this particular country isn't doing much to encourage the industry it now has, let alone bring new industry here.

Isn't it time we smartened up?

## Wellman's United Church Women

The United Church Women of Wellman's United Church held their regular meeting at the home of Mrs. Tom Hinds on Tuesday, April 3rd with 14 ladies and 4 children in attendance.

Mrs. John Carlisle, President, read Psalm CXVII and everyone sang the theme hymn, "From All That Dwell Below the Skies."

Mrs. Gerald Clancy was in charge of the worship service, opening with a short prayer commemorating the Resurrection. The hymn, "All Hail the Power of Jesus' Name," was sung. Mrs. Douglas Clancy read the Scripture reading I Corinthians 15: 1-11. Miss Emma Rainie read a brief note on how we are affected by the "Fact" of Easter. Mrs. W. G. Fletcher read "Now we are affected by the Victory of Easter" and Mrs. Gerald Russett read "Easter with regards to the Demonstration of God's Power." Mrs. G. Clancy offered prayer and Mrs. Jim Pollock immediately followed by singing so effectively, "The Lord's Prayer." The hymn "O Love that will not let me go," was sung, followed by prayer by Mrs. Clancy.

The minutes read by the Secretary, Mrs. Kenneth Tompkins, were approved. The correspondence was also read. Little Miss Valerie Clancy took up the collection which was dedicated by Mrs. Carlisle.

The roll call, a Bible verse containing the word or thought "Hope," was responded to by everyone.

Mrs. W. G. Fletcher was in charge of the Bible study. She accented the women's work in the church and used Mary, mother of John Mark, as an example of the wonderful working women of the Bible. Acts 12: 1-17 was read by Mrs. John Carlisle.

Mrs. Fletcher and Mrs. Frederick Beckett made references to Mary's life as to her being a Woman of Prayer, a very hospitable and friendly person. She used her wealth in the upbringing of the Kingdom and was always interested in helping others. Several questions were asked with regards to our hospitality such as: Is there a place for hospitality in Christian lives today? Is the giver or receiver the loser when hospitality is not extended? Is hospitality a gift or does it have to be acquired? Do friendliness and hospitality go together? Are we afraid that what we have to give is not enough? Is there enough hospitality in our Church? Are strangers made welcome in our Churches and how can we make them assuredly welcome? These questions were exceptionally well answered, giving the feeling that the women of today are doing their best to welcome the outsiders.

Mrs. Gerald Clancy gave a piano solo, "Easter Parade." Mrs. Douglas Clancy gave the report on the study book which dealt with "Youth In Transition." Mrs. Clancy chose to deal with this subject in a discussion with the other members. Some of the phases touched upon were: The school drop out and the causes of it; the driving problem of the teenager; the conflicting values making it difficult for the youth to settle their minds. The church members should extend a helping hand to the younger set, building up a neighbourly feeling as well as trying to guide them in the right ways. More church education for adults would enable them to give deeper help to the youth.

Mrs. Clancy gave an account of the life of Leonard Robinson who chose to leave school in his second year at college, but who came back to be a great leader later on. He expressed the fact that listening rather than teaching was the first step to his advancement. If the youth of today would listen a good deal more than they choose to, they would receive much benefit from it.

Mrs. Omar Dracup read a story dealing with the life of a girl, beginning in a very degraded manner but having been noticed by those more refined and having a helping hand ex-

tended to her was able through years to become a very changed person. In the latter part of her life she was teaching the youth. Her experiences were put in the past and she was doing all she possibly could for those who might take the early steps in life that she had taken.

Mrs. Carlisle thanked all taking part at the meeting and Mrs. Hinds for her hospitality.

Mrs. Hinds and her assistants served dainty refreshments and all enjoyed a social half hour.

## General Meeting St. Paul's U.C.W.

The third General Meeting of the U.C.W. of St. Paul's United Church was held in the Sunday School room at 8 o'clock on April 3rd with an attendance of 52 members.

The President, Mrs. D. Duffin, opened the meeting with an inspiring poem and prayer and handed the meeting over to Mrs. George Carlisle, Chairman of Christian and Missionary Education and her committee who brought the members an impressive Easter thankoffering service. Christ our Passover is sacrificed for us; therefore let us keep the feast — not with the old leaven, nor with the leaven of malice and wickedness but with the unleavened bread of sincerity and truth. Those taking part were Mrs. Camm, Mrs. Maguire, Mrs. Hommersen and Mrs. Faulkner, assisted by Mrs. Geo. Heasman and Mrs. H. West who took the musical numbers, accompanied by Mrs. Sid MacDonald. The offering was gathered by Mrs. C. Davidson and Mrs. Crossman.

Mrs. H. Donnan read the Scripture lesson taken from the 8th chapter of Luke — the Parable of the Sower. At this point the following ladies helped show the many ways a woman can sow seeds of faith in the hearts of others: Mrs. Grant Richardson, Mrs. Allan Wells, Mrs. V. Richardson and Mrs. M. Aythart.

Mrs. Sid MacDonald favoured with a solo, "Christ for the World We Sing."

Two scenes were presented, one for Bible times and one for modern times. Those taking part in scene one were Mrs. Crossman, read the Scripture; Mrs. Bill Morton, Mrs. T. Reynolds and Mrs. Mattson. Taking part in the second scene were Mrs. J. B. Hough and Mrs. Dave Luery. Both scenes showed how costly the giving might be.

Let us in the silence of our hearts accept the Sovereign right of our Lord over all that we have and are. Let us ask, expecting to know how best each can sow and give that God's Gracious Kingdom may come on earth. Hymn 377 was sung and Mrs. Carlisle closed with the benediction.

Mrs. D. Duffin then proceeded with the business. Mrs. Utman, Visiting Chairman, reported 120 calls and 12

cards sent. Mrs. Aythart stressed the need for men's clothing at once as the deposits are empty. It was decided to purchase a set of pins for the Festival of Sacred Praloe, May 14th, 15th and 16th, and that we again run a canteen for the Festival.

Everyone enjoyed a social half hour over a cup of coffee and delicious cup cakes served by Unit One.

## Bethel Girl's Club

The afternoon of March 10th was spent by the Bethel Busy Bee's at the home of Mrs. Don Dewrey and daughter Linda. There were eight regular members and two leaders in attendance. The girls welcomed a new member, Joy Cooney, to the club.

The worship service was taken by Lynda Cooney in the absence of Elizabeth Trencar. The theme of the worship service this month was "Friendship Around the World." Following the call to worship the hymn "Breathe on me Breath of God," was sung. Following the Scripture by Jo-Anne Kirm, Marlene Martin read a story about Pierre Ceresole, the leader of the International Volunteer Service and of his followers who work to bring about friendship among nations. The closing hymn was "This is my Father's World." The worship service was brought to a close by a prayer by Mary Lou Kirm.

Faye Cooney presided as President since both the President and Vice-President were absent. Janet Fletcher gave the Treasurer's report and the roll call was taken. Shirley Lyons read a note from the former leaders thanking the girl's club for the gifts given them after their resignation as leaders. The girls were given booklets instructing them to put a certain number of pennies in a coin bag each month.

Janet Fletcher took over the programme with several contests and games thoroughly enjoyed by all. Lunch was served at the close of the meeting by Mrs. Dewrey. "Happy Birthday" was sung to Shirley Lyons. Faye Cooney voiced a vote of thanks to the Dewreys for opening their home to the girls and for the delicious lunch.

## NEWS FOR THE BUSY FARMER

### BLACKLEG POSES THREAT TO 1962 POTATO CROP

Blackleg could be the number-one disease problem for Ontario potato growers in 1962, says Professor C. B. Kelly, Ontario Department of Agriculture botanist. The reason: Excessive moisture during the growing season last summer increased the amount of Blackleg in the fields.

"The disease was carried over into storage," says Professor Kelly, "and now a good portion of next year's seed is infected." Growers bringing seed potatoes in from outside the province still run the risk of buying infected stock.

A bacterial disease, Blackleg occurs at the stem-end of the potato and is always accompanied by soft rot. Once a tuber is infected, it is of no value for processing or table use, and especially for seed.

If you are buying seed potatoes this year, Professor Kelly suggests you keep these points in mind.

— Buy only foundation or certified seed stock.

— Avoid rough handling that will cause bruises or wounds where decay can enter.

— Store seed in a clean disinfected bin away from other potatoes.

— Check your seed when it arrives for any sign of Blackleg or rot. Discard infected tubers. Treat the seed with Semesan Bel or the older mercuric chloride solution.

— Use whole seed or disinfect any knives used for cutting seed. Disinfect bags or containers used to hold

seed until planting with one of the Quaternary ammonium compounds.

— Don't forget to store seed you don't plant immediately in a well ventilated place, and avoid deep piles, warns Prof. Kelly. Disinfect the planting equipment with Semesan Bel or mercuric chloride one part per 1000 parts of water.

A reminder: Clean up cull around storage daily to prevent seed maggot flies from spreading Blackleg and soft rot bacteria to uninfected tubers.

### CHEAP FERTILIZER CAN BE EXPENSIVE

"Buying the cheapest fertilizer is surprisingly expensive," says Professor W. T. Ewen of the Soils Department, Ontario Agricultural College.

It's true that low analysis fertilizer will cost you less per ton. But it's the plant food you want and the cheapest way to this is in the higher analysis fertilizers.

Here's why: Let's suppose that last year you could buy 2 tons of 2-12-10 for \$110 (\$55 per ton) laid down on your farm. One ton of 4-24-20 would give you the same amount of plant food, but cost only \$90.00. If you bought the higher analysis fertilizer you saved \$20.00.

The higher analysis fertilizer 4-24-20, contains twice as many pounds of plant food as 2-12-10 and hasn't the room for filler. And 4-24-20 requires only half as many bags, half the freight and half the handling charges.

## Furrow and Fallow By Fairbairn

The provisional producer marketing board for milk has finally been formed and has been meeting and apparently making decisions despite the current confusion in the dairy industry because of the recent dairy policy announced by the federal government. There are three members from each of the four producer groups — cream, cheese, concentrated and fluid — and one representative from the breed associations. George McCague, chairman of the Farm Products Marketing Board has been asked to act as chairman in the formative stages in order to avoid any suggestion of bias if one producer group representative was chairman and just as important to take advantage of his broad experience with producer marketing groups. Actually he has been sitting in on most planning meetings even though any marketing scheme developed will come under the Milk Industry Act and not the OFFMA.

Milk distributors and processors are again represented on the Milk Industry Board with the appointment last week of Mr. H. A. Thurston, from the Ottawa Valley. Processors and distributors have been advised of progress to date on an overall milk marketing plan by means of a meeting of the Milk Industry Advisory Committee — 6 processors, 6 producers and 1 dairy co-op representative.

We hear some suggestion that the provisional board is going to replace the Ontario Milk Producers Co-ordinating Board which seems reasonable since there won't be much value in a co-ordinating board if there is an overall milk marketing plan. Harold Martin, secretary of the Co-ordinating Board is acting secretary of the provisional board. While we believe there is general agreement on the make-up of this provisional board, some thorny questions that must be answered before a plan can be presented to producers are how members of the final board will be elected, whether all members will be producers, the composition of a policy committee and what happens to the present milk producer groups under an overall plan.

Previous discussions on the last item would indicate that the four groups will continue to function as they are in close liaison with the provisional board until a permanent board can gradually assume their functions. This will take some time and the necessity of close liaison is apparent when one considers the magnitude of the dairy industry in Ontario. Everyone recognizes the importance of complete continuity during the transition period from the present set-up to an overall marketing board.

Hon. W. A. Stewart, Ontario's Minister of Agriculture, received a report last week on the first six months of a study being made on the composition of milk by various departments at the OAC and OVC and ODA. This was started to try and find some other basis for assessing quality and basing price than on the fat content of milk. The butterfat basis has worked in the past but with people now highly conscious of low fat foods — and many avoiding them — a new basis is necessary. In fact milk and milk products provide the best balanced and least expensive protein of any of the major food items but not too many consumers consider this when buying.

After six months of study and 21,000 tests those working on this milk composition study have no significant trends to announce. However, they have developed two new methods of testing milk which might replace the butterfat test eventually. One is a modification of a test for protein used in Holland and the other an extremely accurate modification of testing for total solids. The study is also trying to determine the effects of such factors as breed, individuality and line breeding on the composition of milk.

### WATCH FOR DISTRIBUTOR CAP WEAR TO AVOID TRACTOR TROUBLE

The next time you remove the distributor cap on your tractor to adjust or replace breaker points, it might pay to take a close look at the cap too. Any signs of cracks or excessive wear means you are headed for starting troubles.

The answer: Install a new cap, says D. E. Clark, Ontario Department of Agriculture engineer.

He suggests that you first inspect the cap for any cracks. These let moisture in which will kill your spark. Look at the high tension carbon centre contact for signs of wear. If a gap is worn between the contact

and the metal finger on the rotor, arcing will result. This causes excessive corrosion and high resistance.

If there are no cracks and the wear is small, clean up both the centre contact and the posts leading to the spark plug with emery paper or a file, advises Clark.

High resistance, arcing and dirty contacts will all cause a voltage loss. This means hard starting and poor gas economy.

### WHITE SCOURS IN SWINE CAN BE A MAJOR PROBLEM

Veterinarians in Ontario report that infectious white scours presents one of the major problems in the nursing litter.

Anything that lowers the resistance of very young pigs may increase their susceptibility to white scours. Anemia, vitamin A deficiency, cold, draughty quarters may contribute to the development of the disease. Once the infection occurs in one litter it may spread to neighbouring litters on the feet of the owner or by direct contact if the pigs are allowed to come to a communal creep.

The main sign of the disease is a whitish or creamy diarrhea. The pigs rapidly lose condition and become very rough in appearance.

Dr. Howard Neely of the Ontario Veterinary College reports that prevention of the disease consists of keeping the pigs' resistance at the highest possible level. Do this by preventing anemia, feeding balanced rations to the sows and providing good warm, dry farrowing and nursing quarters.

If the disease occurs a special effort should be made to isolate the infected litter. The infection may cause serious losses, consequently a veter-

inarian should be consulted and treatment started at the earliest possible time. Cleaning and disinfecting the farrowing pens between farrowings is important. If this procedure is not carried out the infection may become seeded down in the pen and affect subsequent litters.

## CONSERVATION NEWS

### FIRE PREVENTION TO BE INTENSIFIED THIS YEAR

The Fire Prevention effort on summer woods operations in the Tweed Forest Fire District will be intensified this year. Though the number of fires caused by summer operators usually falls well behind smokers' and campers' fires, the danger is always evident considering the number of men employed and adequate precautions are a condition of every operating authority.

The following are some of the conditions attached to the Work Permit: An accurate description is required of the area on which the permittee will be operating.

A list of the fire fighting equipment the operator must have readily available. This is based on the number of men employed and the local hazard conditions and includes such tools as shovels, axes, pails, pulaski tools, hand pumps, and on larger operations, power pumps and fire hose.

Appointment of the foreman and possibly other key men as Fire Wardens, responsible for fire prevention and organization of a suppression crew should fire break out.

Other conditions include restrictions on smoking, that is, workmen are forbidden to smoke while walking or

working, no "tailor made" cigarettes are to be sold in camp or permitted on the operations. Lighters are to replace matches. Lunch fires also will be reduced to a minimum, and the operators are required to give adequate supervision and respect to all fire prevention precautions.

### REASONABLE COMPLAINT

A businessman's grueling day at the office was capped by his wife's announcement that the maid had walked out.

"What was the trouble this time?" he inquired wearily.

"You were!" she charged. "She said you used insulting language to her over the phone this morning."

"Gracious," exclaimed the husband. "I thought I was talking to you!"

## Shower Held For Elsie Martin Bride-To-Be

On Monday evening, April 9th, a  
number of ladies gathered at the  
home of Mrs. Marie Eggleton to hon-  
our Miss Elsie Martin on her forth-  
coming marriage.

The room was decorated with pink  
and white streamers and balloons.  
The main attraction was a white  
painted tree, on which was hung num-  
erous small kitchen gifts. During the  
evening Elsie occupied the bride's  
chair prettily decorated beside the  
tree.

A number of contests were enjoy-  
ed. A half hour was spent by each  
lady decorating a hat for the guest of  
honour.

Elsie was called upon to unwrap  
the gifts from the tree.

An address was read by Marie  
Eggleton and a presentation of a Sun-  
derland wall clock was made by Flo  
Parsonson. Elsie expressed her  
thanks for the lovely gifts and the en-  
joyable evening.

Unknown to the ladies present, the  
evening had been tape recorded.  
The tape was played back during the  
lunch period and was greatly enjoyed.

Wednesday, June 20th —  
Film On Flower Arranging

The Spring meeting of the Stirling  
Horticultural Society was held April  
9th in St. John's Parish Hall, with  
Mrs. Floyd Armstrong presiding.

The Lord's Prayer was repeated in  
unison and the business session was  
then opened. Minutes of the Annual

were read and approved. Mr. J. B.  
Belshaw reported re matters pertain-  
ing to road signs and installation of  
water at Coronation Park and also  
reported the land surrounding the

### Good

### Programme

The program for the evening was  
varied and interesting. Mrs. F. Har-  
ding read an article entitled "Big Vege-  
tables in a Big Land," which told of  
cabbages weighing up to 64 pounds;  
turnips 25 to 30 pounds, and stalks  
of rhubarb 3 feet in length being  
grown in Alaska's gardens. Two other  
informative readings were given by  
Mrs. L. Wannamaker and Mrs. M.  
Clancy. The one told how to propa-  
gate and tend perennial sweet peas,  
and the other described how to culti-  
vate, mulch and properly cut the  
spring flowering bulbs.

The final programme item was a  
film on flower arranging, with the  
projector being operated by Mr. Clare  
West. The colourings and settings  
of the arrangements were beautiful  
and the instructions given easily fol-  
lowed. This film brought to a close  
an enjoyable programme. The mem-  
bers of the Horticultural Society are  
grateful to Mr. West for his assist-  
ance.

The meeting adjourned and lunch  
was served.

## Meighen Rodgers Writes Interesting Account of His European Tour

Following is the story of a European tour by Meighen Rodgers, of West Hill, who formerly resided in the Stirling district, and is now a teacher at Scarborough. Due to its length the article will be published in several parts. This is the final installment.

Leaving Stirling, we passed through the town of Falkirk, noted for its coal-mining and great Caron iron works. Two battles were fought near Falkirk, in 1298 and 1746, in the former of which Wallace was defeated, while in the latter, Prince Charles Edward was victorious. Hence on to

Edinburgh, the capital of Scotland, whose splendid streets, well-laid out gardens, beautiful surroundings, as well as historic associations make it world-famous. The Castle dominates the city from every point and the history of City and Castle is bound together from the earliest days. Holyrood Abbey was founded in 1128, and the Palace of Holyrood House, a Royal residence was commenced in the 15th Century, since then it has had many historic scenes enacted within its walls. The Church of St. Giles dates to the 14th Century. Many fine and precious relics were destroyed in the 18th Century.

The Thistle Chapel is modern, be-

ing built in 1911 and is the Chapel for the Knights of the Thistle, Scotland's premier knighthood. The University was designed by Adam in 1789, although founded in 1582. In a house on the site of the old buildings, Durey and a servant were blown up by gunpowder in 1567. Sir Walter Scott and Robert Louis Stevenson were born in Edinburgh. During my stay in Edinburgh, I was privileged to see part of the Music Festival, and enjoyed some of the world-famous Scottish folk dances. One could not help but like the friendly Scottish people.

### Valley of the Jed Water

Leaving Edinburgh and travelling south, we came to Jedburgh, in the delightful valley of the Jed Water, which has one of the most famous of the Border Abbeys. There are only remains of this Abbey, founded in 1118 and attacked many times by both English and Scots; but the magnificent nave, the East Rose Window and the fine carved Norman Doorway can still be seen. There are interesting monuments in the 14th Century transept. The Castle has gone, though the Queen's House, where Mary Queen of Scots lay still, is preserved as a museum. The greater fame of Jedburgh is with its associations with Sir Walter Scott, but other famous personages are linked with its history such as, the poets Burns and Wordsworth and Prince Charles Edward.

### Newcastle-Upon-Tyne

Travelling south, we entered Newcastle-Upon-Tyne, once a station on the Roman wall, Pons Aelii, and now an important manufacturing city noted for coal, armaments, as well as ship and locomotive building. The Tyne is spanned by three fine bridges: Stephenson's High Level Bridge of 1849; The King Edward Bridge for the railway, built in 1906, and the splendid single-span bridge 1928, opened by King George V.

Our next stop of interest was at York, one of the Roman walled cities of England, called by the Romans, Eboracum, with nearly three miles of medieval walls and fine gates. Clifford's Tower, on the motte in the city is a remnant of York Castle. The women's prison where Eugene Aram stood trial, is now a museum. There are many old houses and picturesque streets, among which are the Shambles, the Stonegate and Low Petergate.

Of the many churches, one of the finest is All Saints, with medieval glass and 15th Century Tower. St. Peter's School was almost the first founded in England.

### Stamford

We passed through Stamford, a beautiful stone-built town on the River Welland with numerous old houses and fine ancient churches. In 1333 students seceding temporarily from Oxford studied here at Brasenose College and of this 14th Century gateway has survived. We continued on to Huntingdon, birthplace of Oliver Cromwell, whose baptismal font at All Saints Church is still preserved. At the same Church, the body of Mary Queen of Scots rested on the way to internment in Westminster Abbey. Both Cromwell and the diarist Pepys were educated at the Grammar School. The poet William Cowper lived here.

### Tour Came To An End At Cambridge

My third tour came to an end when I arrived at Cambridge, on the River Cam, the famous University City with its magnificent old colleges. The "Backs," are delightful lawns sloping down to the river, spanned by many fine bridges. The oldest college is Peterhouse, founded in 1280, whilst Kings, known as "the Glory of Cambridge," was founded in 1441; the Chapel of Kings College took nearly a century to complete. There are nineteen colleges in all, two of which, Girton and Newnham, are for women. I was met here by relatives and taken to London Airport, where I boarded my Canadian DC 8 jet for Malton.

Our jet flight home took us across the Irish Sea, Isle of Man, Northern Ireland, Southern Greenland, Northern Labrador and Quebec, over North Bay and Lake Simcoe, to a safe landing at Malton. The entire flight home was under a clear sky and visibility was excellent, making a glorious ending to a fabulous holiday in Europe. (The end)

Queen, Messrs. Reid, McArthur and Fraser entertained while the ladies served an abundance of pie, sandwiches and coffee.

### St. Andrew's W.M.S.

The regular Home Helpers meeting of St. Andrew's Presbyterian Church was held in the church parlours on Tuesday evening, with a good attendance.

The meeting opened with words of welcome from the President, Mrs. J. Johnston. Hymn 535 was sung. The devotion was taken from the Glad Tidings with several members taking part.

Reports were given from the officers. The collection was taken and dedicated. Roll call was given by a verse containing the word "Praise."

Mrs. Saries was convener of the programme and opened with the use of a hymn. A short memorial service was held in memory of the late Mrs. John D. McGee.

Mrs. C. Rodgers had charge of the study book, which was very educational.

Mrs. V. Matthews favoured with a piano solo. Mrs. Tummon gave a reading, after which a very dainty lunch was served.

Mrs. E. Fox moved a vote of thanks to Mrs. Saries and her helpers.

Headlight glare at night bothers some drivers much more than others. Older people are particularly liable to suffer from poor "glare recovery" i.e. a high beam headlight will leave them dazzled for many seconds after it has passed. The Ontario Safety League suggests that such people should try shutting one eye when meeting dazzling headlights. Unaffected by the light of the passing car, this eye has normal vision when opened, while the other is recovering from the glare.

### VEGETABLE IDEAS

Get a jump on summer by serving colorful dinner salads made from the succulent hot house tomatoes and crisp cucumbers available in the stores this month. Serve them with French dressing or mayonnaise. The big red tomatoes are marvellous too, says the Consumer Section in Ottawa, as a hot vegetable, stuffed and baked or halved and broiled. A little basil or thyme is a nice seasoning for tomatoes.

Try Mustard Sauce to give canned or frozen beans or peas a perky taste. Here is a suggested recipe for sauce enough for six servings. Blend together 1 cup mayonnaise, 1 tablespoon prepared mustard, 3 tablespoons milk and 1/2 teaspoon lemon juice. Pour over the drained vegetables and reheat for 4 or 5 minutes. Sprinkle with almonds and serve.

Give carrots a spring-time look. Prepare, cut into fingers or rounds and cook in the usual way 1 1/2 pounds of carrots (for 6 servings). When just tender, drain, add 2 tablespoons butter, 1 1/2 tablespoons honey and 1 teaspoon chopped parsley. Heat uncovered for 2 to 3 minutes, stirring carefully until carrots are well glazed.

Canned whole kernel corn heated

and well seasoned with butter and pepper is a natural for serving with Easter ham. Or if you are using frozen kernel corn you might try this idea: Place 1 (16 ounce) package of frozen kernel corn in a greased one quart casserole with 2 tablespoons cream, 1 teaspoon salt and a few grains of pepper. Dot with 2 tablespoons butter. Cover and bake in a hot oven, 400 degs. F. for 30 minutes. Four to five servings.

### OF MANY THINGS

(By Ambrose Hills)

#### NATIONAL PROBLEMS

The Board of Broadcast Governors held hearings in Winnipeg recently so I was able to sit in on most of their deliberations. I was struck by the fact that Canada's thin ribbon of population posed so many problems for broadcasting.

Thinking it over, nearly all our national services are hampered by the fact that our population is small, our country rugged, and our people divided by two different languages. In addition to these handicaps, we live beside one of the most dynamic nations in the world's history.

It is remarkable how much we have

been able to get done despite these handicaps. We have become a great manufacturing nation, although the bulk of our potential market lies outside of our own boundaries. We have won a fine reputation among the nations of the world for our stability and good sense. We are, little by little, becoming completely bilingual.

A good deal is being said these days about "planning," and it seems to me that Canadians have been mighty good planners or we would not have achieved so much under difficult circumstances. Ours is certainly not an unplanned society — we have always had some national goals in view and we have aimed pretty high and well.

It seems to me that those who now urge upon us a "planned" economy instead of a free one really are urging compulsion rather than co-operation. Canadians do co-operate in freedom toward the achievement of national objectives. If they had not done so they could not have built so well in the face of so many difficulties.

We have our national problems. We know the cause of them is partly our lack of a large population. We are doing something about that — too slowly, I admit — and we are maintaining a very extensive schedule of social services. That is a pretty good score. It would seem to me that there is every reason to feel confident about our future.

Many a guy has the habit of saying, "Well, I'm going to tell you the truth . . ." Makes me wonder what he has been telling me.

### Entered Into Rest

MRS. CHRISTOPHER BURKITT

Mrs. Rowena Burkitt died suddenly at the Belleville General Hospital on Tuesday, April 10th, 1962, in her 91st year. Born in Rawdon Township, a daughter of the late Mr. and Mrs. Duncan Stewart, she lived in that area most of her life and was a resident of Springbrook prior to going to Belleville a year ago. She was a member of the Springbrook United Church.

She married the late Christopher Burkitt, who predeceased her in 1949. Surviving are a son, Charles, of Belleville; two brothers, Will and Charles Stewart, of Campbellford; and a sister, Mrs. Archie Haslett, of Belleville. The funeral service was held at the Duffin Funeral Home, Stirling, at 2:00 p.m. today (Thursday).

Interment Mt. Nebo Cemetery.

### Unit 4 St. Paul's United C. Women

Twenty-one members attended the meeting of Unit 4, St. Paul's United Church Women on Tuesday afternoon of last week.

Mrs. D. Duffin took charge of the devotional service. Following the invocation hymn 46 was sung. Mrs. E. Wanamaker read the Scripture lesson I. Corinthians 15: 1-11. Mrs. Duffin's meditation on the theme of Easter was followed by prayer and hymn 311. The offering was received and dedicated.

Community Friendship and Visiting representative, Mrs. Brooks, and other members reported a total of 40 calls made during the past month. Mrs. P. J. Hommersen and Mrs. R. Duffin, volunteered to assist with calling on the regular visiting day. The roll call was taken and gifts for shut-in members presented. Miss Mildred White was welcomed as a new member of Unit 4.

### What Others Say

#### THE MAN KNOWN AS HMM

(Pembroke Observer)  
The last page in still another chapter in the history of Ontario's weekly newspapers was written here this week, and this time it bore the printer's signal 30, meaning end, and not the sometimes proud, sometimes defiant initials HMM which had appeared on so many other pages.

Harry M. Moore, who died here on "Wednesday" night, was most active in newspaper work when the weekly was at its height in Ontario. Newspapers in Cookstown, Deseronto, Arnprior, Trenton, Pembroke and Eganville knew him as publisher, editor or writer. Right up to the time of his death, or shortly before, his pungent, sometimes biting paragraphs were appearing in the Eganville Leader, promoting one of his beloved sports, deflating some puffed ego, taking spirited issue on any one of a hundred subjects. Even in his 80th year, the pen of HMM could sting and wound, as it could praise and flatter when the writer wished it.

Hockey and baseball in Pembroke owe a great deal to Harry Moore, and baseball in particular. He never lost the interest in sports that he developed in his youth as a lacrosse player, an interest which led him into coaching, managing and officiating for various leagues in the county and district. Pembroke, and Renfrew county, will be a poorer place without him.

#### SHINS ARE VULNERABLE

(The Printed Word)

It is fashionable to consider that the business community has neither political knowledge nor political influence. It is always safe for a politician to kick the businessman in the shins. Sometimes the businessman has a shin-guard and sometimes he tries to conceal his agony.

The thoughtful businessman is one who is inclined to view with alarm. Unless his viewing is based entirely on his interest in his own enterprise, it could be that he knows what he's talking about.

It is not that the businessman can influence any vote or that the business community in the aggregate can influence votes. Except in the negative sense. The totals of all the votes of the Canadian Manufacturers' Association and the Canadian Chamber of Commerce are less than the total votes in some of the smallest constituencies. And there is a rumor that some of the members of the business community are socialists, these few not being deep thinkers.

What the thoughtful businessman, whose thoughts are based on careful observation and study, does do in a political sense is anticipate a broad public opinion. Public opinion is in a considerable degree the result of economic conditions. The businessman who has by his studies determined what is going to be good or bad, economically is one who is in position to determine some of the results of the next election.

Politicians may safely go on kicking businessmen in the shins. Politicians likely will go on making public speeches that are absurd. But governments cannot go on ignoring the need for establishing a climate of progress and attendant prosperity. If governments do ignore the need for this establishment of a favorable business climate, it will be they who will get the kicks in the shins.

About 45,000 new cases of cancer will be diagnosed this year, the Canadian Cancer Society predicts. All adults are urged to have an annual health check-up and to support the Society's campaign in April.

### The Good Driver

BUCKLE ON — AND STAY ALIVE

Seat belts save lives. This bare fact has been known for a long time. But it has also been largely ignored by the general public. The average driver has not been interested in providing himself with this extra protection against death or injury.

But the picture is changing, says the Ontario Safety League. The trickle of seat belt installations has become a stream. Safety organizations look forward to it becoming a saturation flood.

Acceptance of seat belts is growing fast in Canada, and around the world. Car manufacturers are now installing belt anchorages in all new cars. New York has already taken the next step, a new bill, to take effect by 1965, will make seat belts compulsory equipment throughout the State.

"Success stories" from all over the continent attest to the value of belts. The Ontario Safety League quotes this from Shell News, March 1962:

"Last December 22nd, Mrs. Jean Zwicky and her two daughters, Janine, 6, and Lynn, 4, left Calgary in their 1961 Buick, en route to Edmonton. Traffic was light and road conditions normal, so she settled comfortably behind the wheel, anticipating an uneventful 4-hour drive.

About 45 miles north of Calgary a shallow drainage ditch separates the northbound and southbound lanes. Suddenly a car heading in the opposite direction swerved out of control, bound across the ditch and rammed almost head-on into the Zwicky car. Striking at an angle it literally hurled the Buick off the highway.

A tragedy? Not quite.

Three weeks earlier, influenced by the company's campaign to promote the use of belts, Bob Zwicky had purchased four sets. Getting the children to use them had presented no problem; Bob made a game out of putting them on. The end result was that the youngsters generally reminded their parents to fasten their own belts.

Bob's foresight paid off in three lives. Though the car didn't overturn, the force of the impact clearly would have tossed its occupants violently, perhaps with fatal results. Jean and her two girls were cut and bruised, but the belts held firm. This was shown by the marks the belts made on their skin.

The wrecked car has been replaced, and belts again installed. Bob Zwicky says he would no more drive without seat belts now than without brakes."

## NEWS FOR THE BUSY FARMER

### Furrow and Fallow By Fairbairn

If some of the confusion along dairy lanes has been cleared by recent announcements from Ottawa concerning federal dairy policy for the next year, there could be just as great a stir on the Ontario dairy scene in the next month or so with the Provisional Milk Marketing Board tentatively setting the date for a vote the end of May. Agriculture Minister Hamilton cleared the air by limiting, in effect, changes in the dairy policy to what amounts to a straight consumer subsidy of 12 cents a pound on butter. This will be handled by creameries continuing to pay producers as they have in the past year — on the basis of a 64 cent per pound butter wholesale price but selling to the retail trade at 52 cents. The government will pay the creameries the other 12 cents. This replaces the proposed compensatory payments to producers and since it applies only to butter manufacturers leaves the cheese and concentrated producers and processors in the same position they were during the past year.

Whether the original statements from Ottawa concerning federal dairy policy for the coming year were made intentionally to cause chaos in the industry and scare some segments into activity is not known but it seems to have had that effect. Ontario producers rushed down to Ottawa and after meetings with the minister, decided to hold a vote on an over-all marketing plan almost immediately. In return, apparently, Mr. Hamilton promised not to upset the status quo too much for another year to give them time to work out their problems. If the federal government had continued with its original intentions no over-all plan would have been possible since the basic structure of the dairy industry would have been upset. As it stands now, the only possibility of disturbing the economic set-up comes in the area of ice cream manufacture where some operators might see an advantage in buying sweet butter at 52 cents a pound and skins milk powder at six or seven cents a pound to make ice cream instead of using fresh milk. This is not a major threat.

The big question mark is whether a vote of Ontario's estimated 70,000 milk producers can be held this

spring and whether it should be. First, the physical compilation of a voters' list seems to preclude any possibility of a vote as does the tremendous task of letting all producers know about the plan before they vote. The plan is not finalized although the provisional board has agreed on ten basic principles. Such distractions as a federal election and spring seeding also make it difficult to reach producers either directly or indirectly. There could be a danger in a marketing plan becoming a political football in an election campaign.

Since all producers must be thoroughly informed before a vote and because of the physical and psychological factors just mentioned, it's a safe prediction that the producers optimistic target of the end of May will be missed. All things considered, October might be a better guess. This would still enable implementation of a marketing plan — or at least the beginning of it — before the end of 1962 which is the objective stated by the provisional board.

The objects of the plan agreed upon by the 13 members are to increase and improve the bargaining power of milk producers, to obtain the highest level of income for producers in all categories and to raise those currently in the lower levels, to improve and recognize quality, to dispose of surplus milk to outside markets and to channel milk to assure highest returns to producers. The producer board will also work with processors and distributors to maintain a continuous supply of best quality milk and milk products to consumers as well as giving them value for their money. This programme, as well as market developments, research, promotion and advertising programmes, will be financed by licence fees or levies under the supervision of the producer of the producer board. Method of election of the permanent board has not yet been decided.

### Timely Tips

Better dehorn those calves before fly time if you plan to gouge them, says Prof. G. E. Rathby, of the Ontario Agricultural College Animal Husbandry Department. Some of the horn sores are almost certain to become infected with maggots during the fly season.

Ever puncture a tire that contains

liquid for extra weight? Jack up the wheel and turn the puncture to the top says the Ontario Department of Agriculture. This will save most of the liquid.

Flush out your milking machine as soon as you finish milking, says Ontario Department of Agriculture dairy specialists. A delay of even 20 to 30 minutes is enough to start the formation of milkstone. Once milkstone has started to form, you'll need a milkstone remover to clean it out of your equipment.

When you remove the air cleaner or carburetor of an engine for servicing, place a clean rag over the intake opening, say Ontario Department of Agriculture engineers. This keeps dirt and foreign objects from dropping into the engine through the opening. A clean engine lasts longer.

Are you ready for the pasture season of 1962? Carefully planned forage programme for the whole farm is one of the secrets of getting the most out of pastures, say Ontario Department of Agriculture forage experts. The following are some of the points that should be considered: Are the cattle being turned out early enough? Is pasture being wasted in June? Will there be enough pasture available for the entire season? Will salt and minerals be available at all times? What about fly control? Is there any plan for supplemental feeding during the pasture season? This is the time of year to make your plans taking into account the available acreage and the number of head of stock to be pastured.

### Partial Budget System A Help

The system some farmers use to estimate their potential profits on paper is called partial budgeting. The Ontario Department of Agriculture has been conducting extensive courses with many Ontario farmers and instructing in partial budgeting methods during the last few years.

Agricultural Representatives with

the Department say the partial budgeting system involves estimating the profitability of any proposed change in the farm business. First, a farmer makes a list of all the extra costs of making a change. Then, he makes a list of all the extra returns that he could expect would result from the change. Finally, he subtracts the extra costs from the extra returns in order to estimate the profitability of this change.

These, in more detail, are the steps he follows:

1. Get a clear picture of how the

business is currently operating.

2. Consider different changes that might increase the profits of your business, and pick the one that you think is most likely to be profitable.

3. Get a clear picture of how this proposed change will affect each of the parts of your business.

4. Make a list of all the additional costs of making this change in the business.

5. Make a list of all the additional returns that will result from it.

6. Subtract the added costs from the added returns in order to see

whether or not it would be profitable to make the change — and how profitable.

Do the same thing for other promising changes and see what change would make you the most money.

Once a farmer has this guide, all he has to do is apply an idea he has in mind to it, to determine if it will be profitable.

## Afternoon Unit 3 St. Paul's UCW

The Afternoon Unit Three of St. Paul's United Church Women held their Easter Thankoffering meeting in the Church parlour on Tuesday afternoon, April 10th. Spring flowers were much in evidence and added a touch of beauty to the setting.

The Carmel ladies were invited to attend this meeting which began with a dessert luncheon. Mrs. R. A. Patterson welcomed the ladies, especially the visitors, and gave the following Easter thought: "Christ came not to relieve us, not to make life easy, but to make men strong."

Business was kept to the minimum in order to give time to the Easter programme, which was prepared by Mrs. W. T. Elliott. The matter of the urgent need for used clothing was again brought to the notice of the meeting. Contributions of clothing may be left in the Church kitchen where boxes are waiting.

Mrs. A. Pyear, the speaker of the afternoon, was introduced by Mrs. S. Williams. Mrs. Pyear spoke on "Sacred Music," especially noting the number of Psalms that have been set to music. Many portions of the Bible have been set to music but none so outstanding as the theme of Easter. At Evanston, Ill., two hundred and fifty denominations sang together the hymn "In Christ There Is No East or West." Singing of hymns together puts people on common ground. It is impossible to have an argument after having sung hymns together.

Mrs. Sidney MacDonald sang "The Parting Prayer," which was enjoyed by all.

Mrs. Elliott spoke briefly on the parable sometimes called the parable of the judgment. Regarding the sins of commission and those of omission she said: Judgment for sin will be pronounced according to the motive behind the act.

Thanks from the Carmel ladies was voiced by Mrs. Jack Armstrong.

Thanks to the speaker and to the group in charge of the meeting was expressed by Mrs. Lansing.

## Easter Skit Presented By Unit 3 St. Paul's UCW

A white damask cloth covered table, white candles and Easter lilies made a lovely setting for the Easter programme which was held on Tuesday evening at the home of Mrs. Don Pollock.

The leader, Mrs. Grant Richardson, opened the meeting with a very inspiring poem. She also extended a welcome to everyone.

It was decided to have the program first with Mrs. A. McDonnell in charge. Easter renews our strength and light, getting a firmer knowledge of sincerity and truth. The hymn "The Head that once was crowned with thorns" was sung with Mrs. D. Pollock as pianist.

Those taking part in the worship service were Mrs. G. Richardson, Mrs. Roy Tucker, Mrs. Ron Williams, Mrs. R. West, Mrs. Pat Merrill, Mrs. H. Vandervoort and Mrs. M. Scott.

A skit was presented with scenes one being portrayed by Mrs. H. Johnson, Mrs. D. Pollock and Mrs. Keith Stephens. Scene two was portrayed by Mrs. C. Jones, Mrs. L. Bronson. This concluded the programme, followed by prayer by Mrs. A. McDonnell.

Mrs. G. Richardson resumed the chair, carrying out the business with the minutes being read by the Secretary, Mrs. R. Tucker. The roll call, "A Bible verse," was answered by 15 members.

The calling committee reported 7 calls made. The collection was gathered, also pennies per foot for height

was an added attraction to the Fund Raiser.

### Danford.

The leader, Mrs. Clancy, had Glenn Stapley place the 7th year award seal on the Mission Band certificate for the year 1961.

The leader wrote the new "Messengers Prayer" on the blackboard so the pupils could copy it down and memorize it as follows: "Our Father, help our lips to Praise Thee. Help our hands to serve Thee. And help our hearts to love Thee. Amen."

Dianne Prest passed a sheet of notepaper for everyone present to sign. This paper and a get-well card was sent to Mrs. White (Carol White's mother) who is a patient in the Belleville Hospital.

Four boys were asked to take part in reading how Easter is observed in various countries. In Korea, read by Gerald Stapley; in Italy, by Keith McMullen; in Mexico, by Lloyd Clancy; in Canada, by Lin Stapley.

During the day he attended school, played American games, and had a close American friend, Carl. But at night he seemed to live in another world. In his home his parents clung to their Chinese customs and talked in the Chinese language. Near Johnny's home was an "All People's Church," where later classes were arranged so people like Johnny's mother and others had an opportunity to learn to read and speak English. His mother attended these classes and Johnny was very happy.

Teddy Clarke, Douglas Danford, Ronald Kraft and Billy Stapley distributed the World Friends papers.

Kenneth Danford took part by asking several riddles.

After the meeting closed Lois Danford served a large cooked tin of delicious popcorn.

## The Food Basket

Consumer Section Marketing Service  
CANADA DEPARTMENT OF AGRICULTURE

### TURKEYS AND BROILERS

Marketings of both turkeys and broilers have been unusually high for some time now so that poultry meat is really a bargain. However, it is not likely that this wonderful situation will last indefinitely so consumers should take advantage of it now.

When turkeys and broilers (as well as other poultry) bear the "Canada Approved" stamp it means they have been health inspected by the Federal Department of Agriculture. These veterinarians in eviscerating plants approved and registered by that department's Health of Animals Division. This stamp does not indicate quality or grade but assures that the poultry is fit for human consumption.

When poultry is graded for quality the mark appears on the breast of the bird either on a metal tag, an insert or on the transparent lithographed bag in which the poultry may be sold. A different colour is used to identify each grade. The grades most commonly sold in retail stores are Canada Grade A (Red); Canada Grade B (Blue). The grading of poultry is carried out by certified producer graders and by competent graders in killing and dressing stations, eviscerating stations and poultry grading stations all of which must be approved and registered by the Canada Department of Agriculture.

When determining the amount of turkey to buy allow  $\frac{1}{2}$  to  $\frac{3}{4}$  pound per serving; for broilers, allow  $\frac{1}{2}$  to  $\frac{3}{4}$  a bird per serving. Fresh turkeys and broilers should be removed from wrappings, unwrapped loosely in waxed or foil paper and stored in the coldest spot of the refrigerator. They should be used within two or three days. Frozen poultry should be thawed in its original wrapper and cooked at once. Whether the poultry was fresh or frozen before cooking it may be frozen once it is cooked for later use.

As the Consumer Section in Ottawa says, if the methods for cooking turkeys and broilers in the home are well varied, these meats can be served more frequently and therefore greater is the advantage that can be

taken of their low prices. For example, varying the stuffing for whole birds can create a change in flavor. When turkey and broilers are cut up deep fat fried, a way to get variety into fried poultry is to use different coatings and seasonings. Broiling or barbecuing is a popular way for cooking poultry and here a change of flavor can be achieved by the use of different bastes. Bastes or sauces can also give oven-baked cut-ups a zippy flavour, a sweet flavour, or sweet and sour flavour as desired. Cut-ups also make into marvellous casseroles. This recipe tested by the Consumer Section is a good example.

### Easy Smothered Chicken

- 1 cut up broiler (2½-3 pounds)
- 1 cup butter or vegetable oil
- 1 cup sliced onions
- 1 can (10 ounces) cream of mushroom soup
- ½ cup milk
- ½ teaspoon thyme
- ½ teaspoon salt
- Dash of paprika

### Seasoned Flour

- For each pound of chicken mix:
- 1 cup flour
- 1 teaspoon salt
- ½ teaspoon paprika
- Dash pepper

Coat chicken pieces with seasoned flour. Sauté onions until transparent but not brown, about 5 minutes; set aside. In the remaining fat slowly brown the chicken for about 15 minutes. Remove chicken pieces and drain on a paper towel. Combine the soup, milk, thyme and salt and put half of it into the frying pan, add chicken and onions and pour the remainder of the soup mixture over it. Cover and simmer, basting occasionally until chicken is fork tender, about 40 minutes. Sprinkle with a dash of paprika. Four servings.

### THOSE SMART MACHINES?

People are being scared by the prospect of automation. The new era of the machine is supposed to be so wonderful that it will put us all out of work. "Mr. X" intones the gloomy gas, "is being made obsolete."

Eyewash!

William Kelly, an executive of Consumer's Gas Company, told the national association of office management just how cockeyed this sort of reasoning is. He agreed that some may dream of the day when they can take off for some Shangri-La and leave machines to forward a paycheque regularly. "But if thinking machines ever got that all-fired smart," said Kelly, "it wouldn't be long before they were down in Shangri-La while we were back at work."

He went on to point out that man is a slow, sloppy and brilliant thinker, while the machine is fast, accurate, and stupid!

Certainly, machines are useful. They can, properly used, help raise the living standards of all. Indeed, they have already improved the standard of living for Canadians.

It would be a shame if we became so awed by machines that we fought the process of automation. Automation is a fact of modern life, and wholehearted adoption of it is a must if Canadian industry is to hold its place in the world.

The danger in automation is that we might expect too much of it. We might harbor dreams of doing nothing while the machines do everything. If we take that attitude, if we content ourselves in sitting idly by and having our work done for us, we will be the losers. The best we can hope for is that machines will relieve us from some of the tedious tasks so that we may engage ourselves in brilliant thought and important work.

As Kelly put it, "Man, creative animal, has designed electronic computers, he has dreamed up management techniques, he has invented the profit-motivated society that gives us our affluence of today. All three provide more goods with less effort and time. Some of that time should be reinvested in thinking, in questioning the routine, and in more creative effort."

## Remarks of Mr. Elmer Sandercock On the Recent Budget Debate

Mr. Speaker, in making a few remarks on the Budget Debate, I would at the outset take this opportunity to thank all those who remembered me while I was in the hospital for a few months this past year. The people of the Riding which I have the honour to represent did everything in their power on my behalf while I was in the Kingston Hospital.

I would also like to thank the Government and the Members for flowers, letters and cards sent to me.

There are four Members whom I would especially like to mention. The Member from East Hastings, Mr. Clarke Rollins, to whom we extend our sincere sympathy at this time in connection with the tragedy that happened in his family; The Honourable W. A. Goodfellow, whose family has been saddened by a fatal accident, we all extend our deepest regrets; also, the Member from Prince Edward-Lennox, Norris Whitney, and the Member from Frontenac-Addington, Mr. Jack Simonett.

These four members made many trips to the hospital and took over the responsibility of looking after different problems pertaining to my Riding.

I will always be very grateful to all those who were so helpful to me.

Now, Mr. Speaker, on different occasions, I have told you of all the wonderful people who make up the Riding of Hastings West — our city, towns, villages, beautiful farms, industries of all kinds, hotels, motels, lakes and streams which attract thousands of tourists.

In this Riding, we have witnessed the great expansion that has taken place across this Province in highways, schools, hydro, medical services, welfare, parks, lands and forests. I would like to mention the junior forest rangers who are given the opportunity each year of learning about the outdoor life of this Province. The training that these boys receive will never be forgotten.

Our Provincial Police, who are highly trained men, contribute a great deal in many, many ways for the betterment of this Province.

A great deal of this development which we have seen take place over the last fifteen years can be attributed to the good, sound, Progressive-Conservative Government we have had in this Province.

Mr. Speaker, I would like to make a few remarks about the Opposition. My opinion is that they are all fine men, but I think they have been somewhat unreasonable in spending so much time in asking questions on which they should have known the answers. All Ministers and their Departments are only too willing to give any information to an Opposition Member.

Mr. Speaker, I feel a bit sorry for a number of our Opposition Members. As I remember very well after the 1948 election, we had twenty-one C.C.F.'s. Nineteen of them were on their feet continually making great long speeches, wasting hours and hours of valuable time, but after the 1951 election, only two C.C.F.'s came back (nineteen defeated) and the two to come back were the two who had very little to say. Our friend from Ottawa, Mr. Thomas, and Mr. Grummett from Cochrane South were highly respected and gave valuable assistance as Opposition Members.

Therefore, Mr. Speaker, I am just wondering what might happen after the next election, as I have noticed, over the years that the quickest way to get out of politics is to talk your way out as you cannot talk all the time and be right all the time. I would suggest to these young Opposition Members that they take a good look at how the Member from Grey South, Mr. Oliver, and the late Mr. Nixon from Brant operated in politics so that they may stay here — at least for a while.

Mr. Speaker, I would just like to mention the C.C.F. Party who have taken on this new coat of paint and called themselves the New Democratic Party. You really could not call it paint. I think it's just varnish as you can see through their planning so easily. I doubt very much if this new name will make them many marks or votes.

One thing that has always interested me is why this Party thinks they are such a great friend of labour. What have they ever done for labour? They have never been in power in this Province and I doubt very much if they ever will be.

Where can you go to find better labour laws and working conditions than right here in Ontario under a good Conservative Government?

The tremendous increase in population of this Province each year proves my point without a shadow of a doubt.

Mr. Speaker, I would like to congratulate our new Prime Minister on the way he has conducted the pro-

ceedings of this Session. We are all proud of him — a shrewd, mild-tempered, businessman with all kinds of ability to carry on the affairs of this Province to the satisfaction of all the people.

To the Cabinet, I have the highest regard for every one of them. With their outstanding experience and ability, the affairs of this Province are in capable hands.

Mr. Speaker, these are my own words and thoughts and I thank you for the time you have given to me.

Elmer Sandercock, M.P.P.,  
April 16, 1962 Hastings West

### Springbrook U.C.W. Meeting

The Springbrook United Church Women met at the church on April 5th at 8 p.m. Mrs. G. Williams and Mrs. C. Spry were hostess.

The President, Mrs. R. Wellman, welcomed the large gathering of ladies, stating that it was a new venture in planning an evening meeting. The President opened with the theme song.

The worship service on Easter was prepared by Mrs. J. Rathwell. A poem and a prayer and poem was given by the leader followed by the hymn "My Faith Looks Up To Thee." The Scripture Lesson was given by Mrs. H. Pallen. Meditations on Easter were given by Mrs. J. Rathwell, followed by the Lord's Prayer. Mrs. B. McCoy gave the prayer for our missionaries. The hymn, "When I Survey the Wondrous Cross" was sung. The offering was gathered by Mrs. G. Broadworth and dedicated by Mrs. H. Pallen and the worship service closed with a prayer.

Mrs. H. Mumby gave the Easter topic. In her opening remarks she mentioned that the organization had changed its name and there is much need for U.C.W. She stressed the three Marys of the Bible — Mary the mother of Jesus; Mary Magdalene the first to know that Jesus had risen; and Mary of Bethany, who anointed Jesus with costly ointment. She reminded the ladies of the true value of these three Bible women, of their faith, steadfastness and unshaken qualities. The President thanked her for the topic.

The roll call was an Easter symbol responded to by 36 members and guests. The Secretary read a note of thanks from Mrs. W. McInroy for the lovely plant she received while ill. Mrs. L. Bailey thanked the members for the basket of fruit.

The sick and visiting committee, Mrs. J. Spry and Mrs. B. McCoy, reported on visitations.

Mrs. F. McKeown asked about sending a bale for overseas relief, stating clothing is needed very badly, chiefly men's clothing and children's, blankets, quilts and baby clothing. The President urged all members to save clothing for sending overseas.

The social convener, Mrs. M. Mason, outlined the duties of the social committee. The committee had met previously and had outlined the activities of the year and asked for the co-operation of all members. The President inquired about flowers for the Easter service.

Mrs. R. McKeown read a letter from Mariel Mumby asking the use of the kitchen and the ladies of the U.C.W. to cook for the supper on April 18th. This is to be a lenten supper, the ladies to buy pins and badges.

Mrs. G. Thompson reported that a T.V. antenna had been installed at the parsonage.

The President reported that Springbrook had one life member, Mrs. G. Thompson, and her pin and membership card were on display.

The programme consisted of a reading by Mrs. P. Mumby, "No Occupation" and Mrs. M. Mason conducted her version of the T.V. show, "Live A Borrowed Life." Her contestants and the audience were served mint candy. Mrs. R. McKeown conducted a contest, "How Do You Feel?" — 24 articles were passed around the group, guessing what was contained in the packages. Mrs. M. Bateman had a singing contest.

The President closed the meeting.

Despite warnings never to hammer anything they know nothing about, these two boys were in the process of finding tools to dismantle the bomb when noticed by Mrs. Little.

### River Valley Unit 5 United C. Women April Meeting

The River Valley United Church Women held their April meeting on Tuesday evening at the home of Mrs. Gerald Brooks with an attendance of fourteen, four visitors and one child.

Mrs. Glenn Bush had charge of the programme with the theme being: Easter. Following the call to worship, "He Is Risen Today," all sang the hymn "Christ the Lord Is Risen Today," followed by prayer. Mrs. Roy Irvin read the Scripture, Mark 16. A poem and meditation was given by Mrs. Glenn Bush. The hymn "Take My Life and Let It Be," was sung. The offering was received and dedicated.

Mrs. Thompson gave a wonderful message on "There is No Turning Back." She compared the new U.C.W. to the life of Joshua who came up against many obstacles but who with faith, prayer and hard work was able to overcome them all.

### PROGRESS REPORT ON MILK COMPOSITION STUDY

A progress report, representing six months of study, on the composition of Ontario produced milk which is under way at the Ontario Agricultural College has been presented to Hon. Wm. A. Stewart, Minister of Agriculture.

In reviewing the results of the study to date, Mr. Stewart said that gradual changes in dairy trends have made the public more conscious of low fat foods, but at the same time, it was not generally realized by the public that milk and milk products contained the best balanced and least expensive protein to be found in any of the major food items.

With dairy cattle breeding programmes placing the emphasis on milk and milk fat production, leaders in the industry have felt that insufficient attention has been given to the non-fat solids portion of the milk. This fact, he says, has given added impetus to the study now under way.

Mr. Stewart stated that the Ontario Department of Agriculture has undertaken to initiate and financially support the milk composition study, the broad aims of which are to determine the effects of such factors as breed, individuality and line breeding on the composition of milk and to assess the accuracy and practicability of new tests for protein and solids not fat.

As a result of the study to date two new methods of testing milk on the basis of protein and total solids are receiving serious consideration. One is a modification of the Amido Black dye test for protein which is now being used successfully in Holland and the other a practical and extremely accurate modification of the Swedish method of testing for total solids.

Over 21,000 individual tests have been completed during the first months of the study with the expectation that this number will be doubled during the second six month period. As yet it is too early to establish any significant trends from the study.

The work of the survey is being carried out co-operatively by the Dairy Science and Animal Husbandry Departments at the Ontario Agricultural College; the Mastitis Laboratory of the Ontario Veterinary College; and the R.O.P. division of the Production and Marketing Branch of the Canada Department of Agriculture.

### RABIES INCIDENCE FLUCTUATES

Laboratory confirmed rabies cases totalled 1,071 in the 12-month period ended March 31st, reports the Health of Animals Division, Canada Department of Agriculture.

The number is up sharply from the 787 cases in the previous 12 months but is less than half the 2,550 cases reported in the record 1958-59 period. Of the 1,071 cases, wildlife accounted for 671, livestock for 247 and there were 103 dogs and 50 cats.

Ontario had the bulk of the cases — 862. Of these, 536 were wildlife.

The greatest incidence of rabies was found in the Georgian Bay area, with Grey County reporting 123 cases, Simcoe 84 and Bruce 57. In eastern Ontario, Renfrew County had 73.

There were 111 cases in Quebec — 60 of them wildlife. Of the counties reporting rabies, Gatheneau County, with 28, had the most cases.

Manitoba had 83 cases, 66 of them involving skunks. New Brunswick reported one case — a horse.

Eight rabid dogs and six foxes were reported in the Northwest Territories. It was from the N.W.T. that rabies spread southward to strike at Ontario, Quebec and Manitoba.

As in previous years, the rabies incidence is expected to decline this summer.

But vigilance is still needed, officials warn, stressing that all suspected cases should be reported immediately to the nearest officer of the Health of Animals Division.

### ONTARIO FARM SAFETY PROGRAMME RECOGNIZED IN STATES

Effectiveness of the Ontario Farm Safety programme, set up by the Ontario Department of Agriculture, has been recognized by the United States government, which recently asked Grant Smith, past Chairman of the Ontario Farm Safety Council, to participate in the Washington conference called by the U.S. Occupational Safety Conference.

Establishment of the Ontario Farm Safety Council followed a farm accident survey in Ontario which pointed out the heavy loss of life and economic loss resulting from farm operations.

Mr. Smith participated in a programme devoted to Safer American Agriculture and was able to outline to the U.S. conference the effectiveness of the Ontario programme.

One of the conclusions drawn by the conference was that education provided the major key to the reduction of farm accidents and that an educational programme is necessary to inform farm residents and employees of the dangers inherent in the industry.

Recommendations for educating U.S. farm people were similar to those now being carried out in Ontario.

### Furrow and Fallow By Fairbairn

As a direct result of recommendations of the vertical integration committee set up by Ontario's Minister of Agriculture, Hon. W. A. Stewart, three amendments have been made in the Farm Products Marketing Act. While these will not completely eliminate dangers farmers see in vertical integration, they do constitute a step in the direction of bringing V.I. under

control. Mr. Stewart had recognized soon after he assumed office that marketing plans would become relatively ineffective if processors were allowed to grow produce outside existing marketing plans. Specifically referring to canners, the minister stated that any processor or canner wishing to produce his own product for which a marketing plan existed should be treated as any other producer or grower.

There has been quite a startling increase in the vegetables grown by processors in Ontario — that is vertical integration. In many cases, marketing plans for these vegetables are in force but the processors ignored them. There are also co-operative enterprises, such as COPACO (a meat packing operation) whose members raise produce, process it and market it outside existing marketing plans. This latter situation is pitting farmer against farmer and, we suspect, posed quite a problem for the committee studying V.I. It must also pose a problem for any government trying to decide what legislation will benefit most farmers.

These new amendments do not answer all the questions but obviously, Mr. Stewart and his colleagues hope they will solve some of the problems. The first one should protect the farmer who takes an active part in farm organization efforts and producer marketing boards. While processors will undoubtedly deny it, there is evidence to indicate that some growers have been cut off (lost contracts) because they said too much or played a prominent role in organizing growers. Criticism of contracts which were not in the best interest of the producers is not considered proper conduct for their growers by some processors. And, "not in the best interest of producers" means contracts designed to protect or favour the processor only. The amendment to the OPFMA ensures that a producer cannot be cut off without the processor showing 'just cause'.

The second amendment requires that everyone growing or raising any regulated product pays the local board any licence fees payable by producers. The exact wording of this one requires "any person who produces and processes a regulated product, to furnish to the Board or the local board (Ed's Note: producer board) statements of the amounts of the regulated product processed and to pay to the local board or marketing agency, as the case may be, any licence fees payable by producers." The V.I. committee was asked to study only the effects of vertical integration in the vegetable industry, and, while this amendment would appear to be aimed specifically at canners, it would appear that it could be applied equally to the case of COPACO which has been processing members' hogs and not paying the 40 cent levy to the Ontario Hog Producers Marketing Board.

The third amendment gives the Farm Marketing Board power to regulate and control agreements (contracts) entered into by producers of a regulated product — that is, to read the fine print and prohibit the inclusion of any clause it feels is not in the best interest of the producer. This is the one that could do the most to limit the expansion of vertical integration. Some growers have been forced to rent land to processors in order to secure a contract for themselves. There have also been other items in the fine print that most farmers considered unfair and this amendment should lead to their elimination.

## LEGION NOTES

Stirling Legion Hall was the scene of a most interesting and enjoyable social evening recently. About 58 comrades were treated to three special outdoor films, provided through the courtesy of the C.N.R. and Comrade Chas. Wilson. Two of the films dealt mainly with boating and fishing in Algonquin Park and Northern Ontario. A final film featured a trip to Montreal and Quebec City.

The Branch is indebted to Comrade Wilson for his interest and work in obtaining the films. Special thanks are also extended to Comrade Eugene Burrell who obtained and operated the projector. It is hoped that another movie night can be arranged for this fall.

Another feature of the evening was the presentation of a Legion Life

Membership to Comrade Clarence Chard. The meeting was treated to a brief, but interesting outline of the history of Stirling Branch by Comrade Fred Houchin. In his remarks, Comrade Houchin paid tribute to Clarence who for many, many years has been a devoted and valuable member of Stirling Legion.

The life membership card was presented by Zone Commander, Dr. D. C. McVicker, of Deseronto, and the life membership button was presented by Branch President Gil Finkle.

All Comrades join in wishing Clarence many more years of health and happiness.

President Finkle has called a special meeting of the branch executive for Friday, April 27th at 8 p.m. sharp. All members of the executive are asked to attend this important meeting. That's this Friday at 8 p.m.

The regular May business meeting is scheduled for Tuesday, May 1st at 8.15 p.m. All Comrades are asked to attend this meeting as many items of business affecting the welfare of the branch will come up for discussion. One important item will be the laying of final plans for the Legion-sponsor-

ed Community Fireworks Display. This display has become an annual feature of the Victoria Day holiday and all indications point to an outstanding fireworks display this year. Once again, the public will be asked to contribute to the fireworks fund. Canvassers will call at every home in the community seeking your financial support.
